

# 8 TIPS TO HELP CREATE A POSITIVE MENTAL ATTITUDE

1

## REMEMBER THAT YOU ARE POWERFUL

What we are is far greater, far superior, far more important, and far more mysterious than our conceptual mind tries to define.

2

## CHOOSE TO EMBRACE LIFE

Let go and embrace the moment, whether it contains an obstacle or an opportunity. Stop fussing over trivial matters and start focusing on what's really important to you.

3

## YOU GET TO CONTROL YOUR REACTIONS

We create our outside reality by the thoughts and beliefs we maintain about life in general. What we believe in our inner world, we see in our outer world—not the other way around.

4

## KNOW THAT NO ONE IS BETTER QUALIFIED

No matter what anybody says about you, it doesn't hold any significance to who you truly are unless you identify or agree with them.

now this is the case with A Z of Teaching Serving as a high definition map of classroom teaching it provides mentorship for survival and thriving in the profession Comprehensive without being laboured rich in concepts without succumbing to clutter ingeniously economic in the identification of key themes without being trifling Savage and Fautley manage to distil the important and inspiring from vast amounts of theory research and practical experience of teaching and present the essential elements in a most accessible manner for early career teachers More experienced educators will also find many gems to renew and inspire their practice The approach is pragmatic whilst never seeking to trivialise the challenges of teaching or the vast amounts of extant theories Most importantly the reflective questions at the end of each section serve to provoke further thinking research and action thus contributing meaningfully to the development of effective and reflective teachers for contemporary schools Regina Murphy PhD Senior Lecturer St Patrick s College Dublin City University Ireland The construction of this book is very satisfying it is so straightforward to access and simultaneously works at so many levels Using the tried and tested structure of an A to Z listing Jonathan Savage and Martin Fautley consider a number of highly significant aspects of education pedagogy and professional issues for teachers at all stages of their professional development In their consideration of some 103 topics they skilfully blend key theoretical underpinning with current practice in the classroom making this book extremely useable by teachers in all sectors and age phases The range of topics makes this especially useful because it covers some big issues but also explores some less frequently covered things such as audience and elicitation What I have found particularly helpful is the fact that in this book I readily recognise aspects of my own classroom practice in the overview of each topic but I am encouraged and inspired to reflect more deeply on my professional development in the light of the collected wisdom and challenging questions This book will be an invaluable tool for training and beginning teachers as well as for those with years of experience The inclusion of key questions and further reading means that it can serve as a very accessible reference book an aide memoir or as a stimulus for more detailed debate discussion or professional development Consequently it will support the work of individuals department or phase teams or even larger groups The potential to individualise training and coaching by referring trainees to relevant entries is great I will certainly want to use it when working with trainee teachers and also with teachers undertaking CPD and Masters qualifications I look forward to Volume 2 appearing in the future Simon Spencer Birmingham City University UK I am delighted to welcome this brief but important compendium of the A Z of Teaching written by Jonathan Savage and Martin Fautley authors with extensive experience of teaching This book provides eloquent insights and distilled definitions of key terms and concepts in an introductory way that will inform inspire engage and help navigate through the maze of key terms which busy students in initial teacher education and practising teachers simply must read Pamela Burnard Faculty of Education University of Cambridge UK This is a very entertaining and well structured resource written in easy and accessible language It contains a serious carefully referenced introduction to a number of major issues encountered in the early stages
