The Journal of Education Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1895 **Resources in Education** , 2000-04 **School and Home Education** , 1891 **The Public-school Journal** , 1891 **Saturday Review** , 1875 **Replies [afterw.] The Oracle** , 1879 **Unity** , 1888 **National Stockman and Farmer** , 1885

Normal Instructor , 1915 **The College Buzz Book** Carolyn C. Wise, Stephanie Hauser, 2007-03-26 Many guides claim to offer an insider view of top undergraduate programs but no publisher understands insider information like Vault and none of these guides provides the rich detail that Vault's new guide does. Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate institutions. Each 2 to 3 page entry is composed almost entirely of insider comments from students and alumni. Through these narratives Vault provides applicants with detailed balanced perspectives.

New England Journal of Education Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1878 **The Invention of Childhood Creativity** Cat Martins, 2024-11-15 This text offers a comprehensive analysis of the concept of the modern creative and imaginative child in Western education. Drawing on archived sources and historical works, it reframes childhood creativity as a social, cultural, and scientific construction, asking how our thinking and acting toward the creative child have been produced historically. The text dissects the discursive construction of creativity as a natural and developmental attribute of the child. It argues that the idea of the White creative child constructed through comparative reasoning shaped by primitivism and illustrated through botanical metaphors as close to nature and the senses is a notion embedded with colonialities forming part of a Western civilizing project and entrenched power/knowledge relations. A compelling and original account of childhood creativity, this text will appeal to researchers in arts education, early childhood education, curriculum studies, and the history of education. *Bulletin of the Atomic Scientists* , 1963-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world.

Making Sense of Learning Norman Reid, Asma Amanat Ali, 2020-08-25 This textbook brings together findings from global research on teaching and learning with an emphasis on secondary and higher education. The book is unique in that the content is selected in an original way and its presentation reflects the most recent research evidence related to understanding. The book covers and presents themes that are based tightly on worldwide research evidence, scrupulously avoiding opinion or any dependence on the personal experience of the authors. The book starts by reflecting on educational research itself. The four chapters that follow relate the story of the research that shows how all humans learn and the variations within that framework. These chapters offer a tight framework that underpins much of the rest of the text. The next four chapters look at the way school curricula are organised and how the performance of learners can be assessed. They summarise the research evidence related to thinking skills and consider the importance of practical teaching. This is followed

by two chapters that draw from the extensive social psychology research on attitude development as it applies in education and then by two chapters that summarise the research related to major issues of controversy the performativity agenda and the issue of quality One chapter looks at the place of statistics in education The next two chapters look at the evidence that can support or undermine many typical education beliefs or myths and mirages Finally the last chapter brings it all together and looks into the future pointing to some areas where future research is likely to be helpful based on current knowledge
