Rhino Owners Manual:

Operation Lock and the War on Rhino Poaching John Hanks, 2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF s head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In *Operation Lock and the War on Rhino Poaching* John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching

African Rhino Richard Emslie, 1999 The black and the white rhinoceros have become flagship species for international conservation They are significant not only for the continuation of a major evolutionary heritage but also as symbols for the protection of African savannahs The battle for the survival of these species has been marked by some notable successes and sadly many failures and the situation is still critical The international horn trade ban and the domestic bans imposed in most traditional user states have driven the trade further underground in some cases inflating prices and making illegal dealing even more lucrative This Plan is aimed at donors government and non government organizations and all those involved in rhino conservation It outlines the actions and strategies needed to catalyse support for these majestic animals and help secure their future in sub Saharan Africa The overall conclusion is that given the political will stability and adequate field expenditure rhinos can be conserved in the wild

[The Singing Teacher's Guide to Transgender Voices](#) Liz Jackson Hearn,Brian Kremer,2018-05-18 *The Singing Teacher s Guide to Transgender Voices* is the

first comprehensive resource developed for training transgender and nonbinary singers This text aids in the development of voice pedagogy tailored to the needs of transgender singers informed by cultural competence and bolstered by personal narratives of trans and nonbinary singing students The singing life of a transgender or nonbinary student can be overwhelmingly stressful Because many of the current systems in place for singing education are so firmly anchored in gender binary systems transgender and gender nonconforming singers are often forced into groups with which they feel they don t belong Singers in transition are often afraid to reach out for help because the likelihood of finding a voice teacher who is competent in navigating the social emotional physical and physiological challenges of transition is minimal at best This text equips teachers with a sympathetic perspective on these unique struggles and with the knowledge and resources needed to guide students to a healthy joyful and safe singing life It challenges professional and academic communities to understand the needs of transgender singers and provide evidence based voice education and real world opportunities that are authentic and genuine The Singing Teacher s Guide to Transgender Voices is the first book of its kind to provide thorough organized information on the training of trans singers for educators in both the academic and independent teaching realms
