Richard E Speidel Book:

Military Law Review ,1978 *Teaching Notes to Accompany Studies in Contract Law, Second Edition*, by Edward J. Murphy, Richard E. Speidel Edward J. Murphy, Richard E. Speidel, 1977 *Law and Class in America* Paul Carrington, Trina Jones, 2006-06 In *Law and Class in America* a group of leading legal scholars reflect on the state of the law from the end of the Cold War to the present grappling with a central question posed to them by Paul D Carrington and Trina Jones have recent legal reforms exacerbated class differences in America In a substantive introduction Carrington and Jones assert that legal changes from the late 20th century onward have been increasingly elitist and unconcerned with the lives of poor people having little access to the legal system Contributors use this position as a springboard to review developments in their own particular fields and to assess whether or not legal decisions and processes have contributed to a widening gap between privileged and unprivileged people in this country From antitrust and bankruptcy to tax and election law the essays in this unique volume invite readers to reflect thoughtfully on socio economic justice in the new century and suggest that a lack of progressive reform in all areas of law may herald a form of undiagnosed class dominance reminiscent of America's Gilded Age Contributors Margaret A Berger M Gregg Bloche David L Callies Paul D Carrington Paul Y K Castle Lance Compa James D Cox Paula A Franzese Marc Galanter Julius G Getman Lawrence O Gostin Joel F Handler Trina Jones Thomas E Kauper Sanford Levinson John Linehan Joseph D McNamara Burt Neuborne Jeffrey O Connell Judith Resnik Richard L Schmalbeck Danielle Sarah Seiden Richard E Speidel Gerald Torres David M Trubek Elizabeth Warren and Lawrence A Zelenak

Law in a Digital World M. Ethan Katsh, 1995-05-25 The world of law is a world of information Rules judgments decisions interpretations and agreements all involve using and communicating information Today we are experiencing a significant transition from letters fixed on paper to information stored electronically The digital era where information is created stored

and communicated electronically is quickly approaching if not already here The future of law will no longer be found in impressive buildings and leather bound books but in small pieces of silicon in streams of light and in millions of miles of wires and cable It will be a world of new relationships and greater possibilities for individual and group communication an environment where the value of information increases as it is shared In Law in a Digital world M Ethan Katsh explores how these new technologies will alter one of our most central institutions He considers the different ways in which people will not only electronically read and write but also interact with our vast storehouses of legal knowledge and information He envisions how sounds and pictures will play into the largely imageless print world of law and looks at the future importance of graphic and nontextual communication He explores how the flexible personalized organization of data will transform the way we gather information and whether information can or cannot be contained raising questions of copyright and privacy What happens to the law when information is more plentiful and accessible What happens to those people who suddenly have access to information never before available Does the use of information in a new form change the institution the user and those who come in contact with the user And what role does the lawyer play in all of this For citizens for lawyers for all those who will be part of the digital world rushing toward us Katsh answers these questions while considering the implications of this new era
