

CHAPTER REVISION

This chapter introduced the application of the GST to accounting. It showed how GST affects the supply chain, and how it is recorded in a business's books of account and reported in the ATO's Sales journal entries appropriate to service enterprises were demonstrated. The proposed inventory system was altered as the most appropriate method of measuring inventory records for trading enterprises, and journal entries related to this system were demonstrated. A variety of other journal entries applicable to other forms of enterprise were also demonstrated. Illustrative examples showed how all of these types of general journal entries are posted to ledger accounts, and how a trial balance is prepared to check on the mathematical accuracy of the ledger.
