Separation Technology reports on the most important fundamental and technological advances in separation processes using ionic liquids. It brings together the latest developments in this fascinating field, supplements them with numerous practical tips, and thus provides those working in both research and industry with an indispensable source of information. The book covers fundamental topics of physical, thermal, and optical properties of ionic liquids, including green aspects. It then moves on to contexts and applications, including separation of proteins, reduction of environmental pollutants, separation of metal ions, and organic compounds, use in electrochromic devices, and much more. For the specialist audience, the book serves as a recompilation of the most important knowledge in this field; whereas for starting researchers in ionic liquid separation technology, the book is a great introduction to the field. First book in the marketplace dedicated to ionic liquids in separation technology. Contributions from scientists in academia and researchers in industry ensure the coverage of both scientific fundamentals and industrial applications. Covers a broad collection of applications in separation technology, which makes the book a single source of information. Includes many practical tips for researchers in industry and scientists who apply ionic liquids in their work.

**Mentoring in Nursing through Narrative Stories Across the World** Nancy Rollins Gantz, Thóra B. Hafsteinsdóttir, 2023-07-15. The book explores the theoretical background of mentoring and how mentoring is used by nurses in all arenas where they work: in health care, education, research, policy, politics, and academia, in supporting nurses with their professional and career development. Over 300 mentors and mentees from a wide range of countries across all continents share their stories of mentoring, reflecting on their development in leadership, clinical practice, education, research, and politics. The book describes various types of mentoring, including more traditional types of mentoring as well as virtual, online, and peer mentoring. During the mentorship trajectories, the nurses address an inclusive collection of issues that they are faced with and share supporting strategies. The book highlights the importance of mentoring for nurses to support their personal and professional leadership development. Also, it emphasizes the importance of mentoring for when nurses are engaged in a variety of projects that could entail or encompass evidence-based clinical practice development within education, research, in the clinical arena, policy formation, political affairs, or cultural inclusion that present significant impact in patient care and healthcare outcomes within and across countries. With *The Future of Nursing 2020-2030: Charting a Path to Achieve Health Equity* report from the National Academies of Sciences published in 2021, the role of nursing will become

ever more dynamic and therefore the profession of nursing must be visible in improving and securing the future for patients families and communities across the globe Mentoring practices to build the profession s leaders are forever essential acute and imperative This book shows how mentoring can support nurses in further developing nursing as a profession and scientific discipline across countries to support clinical application of evidence based practice and nursing education and research dissemination Accordingly this book shares essential diverse and pioneering expertise through wide range of narrative stories that will benefit nurses at all years of experience from early career nurses emerging leaders nurse educators leaders policy makers and nurse scientists around the globe The nursing profession must magnify its position in health care and nurses need to proliferate their contributions throughout the globe They can accomplish that through mentoring and growing and nurturing other nurses to advance and thrive in today s world
