## **Neoliberalism And Applied Linguistics John Gray:**

Neoliberalism and Applied Linguistics David Block, John Gray, Marnie Holborow, 2013-03-01 This book explores neoliberalism a view of the world that puts the market at its centre from the perspective of applied linguistics Neoliberalism and Applied Linguistics argues that while applied linguistics has become more interdisciplinary in orientation it has ignored or downplayed the role of political economy namely the way in which social political and economic factors relate to one another within the context of a capitalist economy The authors take the view that engagement with political economy is central to any fully rounded analysis of language and language related issues in the world today and their collaboration in this volume represents an initial attempt to redress what they perceive to be an imbalance in the field The book begins with a discussion of neoliberalism and an analysis of the ways in which neoliberal ideology impacts on language This is followed by a discussion of how globalization and identity have been conceptualised in applied linguistics in ways which have ignored the political centrality of class a concept which the authors see as integral to their perspective The book concludes with an analysis of the ways in which neoliberal ideology plays out in two key areas of applied linguistics language teaching and language teacher education Neoliberalism and Applied Linguistics is essential reading for advanced undergraduates postgraduates and researchers in applied linguistics

*Language and Neoliberal Governmentality* Luisa Martín Rojo, Alfonso Del Percio, 2019-06-26 Against a background of the ongoing crisis of global capitalism and the fracturing of the neoliberal project this book provides a detailed account of the ways in which language is profoundly imbricated in the neoliberalising of the fabric of social life With chapters from a cast list of international scholars covering topics such as the commodification of education and language unemployment and the governmentality of the self and discussion chapters from Monica Heller and Jackie Urla bringing the various strands together the book ultimately helps us to understand how language is part of political economy and the everyday making and remaking of society and individuals It provides both a theoretical framework and a significant methodological tool box to critically detect understand and resist the impact of neoliberalism on everyday social spheres particularly in relation to language Presenting richly empirical studies that expand our understanding of how neoliberalism as a regime of truth and as a practice of governance performs within the terrain of language this book is an essential resource for researchers and graduate students in English language sociolinguistics applied linguistics linguistic anthropology and related areas

Social Class in Applied Linguistics David Block, 2013-12-04 In this ground breaking new book David Block proposes a new working definition of social class in applied linguistics Traditionally research on language and identity has focused on aspects such as race ethnicity nationality gender religion and sexuality Political economy and social class as an identity inscription have been undervalued This book argues that increasing socioeconomic inequality which has come with the consolidation of neoliberal policies and practices worldwide requires changes in how we think about identity and proposes that social class should be brought to the fore as a key construct Social Class in Applied Linguistics

begins with an in depth theoretical discussion of social class before considering the extent to which social class has been a key construct in three general areas of applied linguistics sociolinguistics bi multilingualism and second language acquisition and learning research Throughout the book Block suggests ways in which social class might be incorporated into future applied linguistics research A critical read for postgraduate students and researchers in the areas of applied linguistics language education and TESOL

*In Pursuit of English* Joseph Sung-Yul Park, 2021-08-13 *In Pursuit of English* traces how the English language became an object of heated pursuit amid South Korea's rapid neoliberalization creating the so called English fever of the 1990s and 2000s Joseph Sung Yul Park demonstrates that English gained prominence not because of the language's supposed economic value but because of the anxieties insecurities and moral desire instilled by neoliberal Korean society Park shows how English came to be seen as an index of an ideal neoliberal subject who willingly engages in constant self management and self development in response to the changing conditions of the global economy Bringing together ethnographically oriented perspectives on subjectivity critical analysis of conditions of contemporary capitalism theories of neoliberal governmentality and sociolinguistic and linguistic anthropological frameworks of metapragmatic analysis *In Pursuit of English* develops an innovative new direction for research at the intersection language and political economy challenging researchers to consider subjectivity as the key for understanding the place of language in neoliberalism

**Culture and Identity through English as a Lingua Franca** Will Baker, 2015-07-01 The use of English as a global lingua franca has given rise to new challenges and approaches in our understanding of language and communication One area where ELF English as a lingua franca studies both from an empirical and theoretical orientation have the potential for significant developments is in our understanding of the relationships between language culture and identity ELF challenges traditional assumptions concerning the purported inexorable link between a language and a culture Due to the multitude of users and contexts of ELF communication the supposed language culture and identity correlation often conceived at the national level appears simplistic and naïve However it is equally naïve to assume that ELF is a culturally and identity neutral form of communication All communication involves participants purposes contexts and histories none of which are neutral Thus we need new approaches to understanding the relationship between language culture and identity which are able to account for the multifarious and dynamic nature of ELF communication

*Neoliberalism and Language Shift* Ben Ó Ceallaigh, 2022-11-07 While economic forces are often cited as being a key cause of language loss there is very little research that explores this link in detail This work based on policy analysis and ethnographic data addresses this deficit It examines how neoliberalism the dominant economic orthodoxy of recent decades has impacted the vitality of Irish in the Republic of Ireland since 2008 Drawing on concepts well established in public policy studies but not prominent in the subfield of language policy the neoliberalisation of Irish language support measures is charted including the disproportionately severe budget cuts they received It is argued that neoliberalism's antipathy towards social planning and redistributive economic

policies meant that supports for Irish were inevitably hit especially hard in an era of austerity Ethnographic data from Irish speaking communities reinforce this point and illustrate how macro level economic disruptions can affect language use at the micro level Labour market transformations emigration and the dismantling of community institutions are documented along with many related developments thereby highlighting an issue of relevance to communities around the world the

fundamental tension between neoliberalism and language revitalisation efforts **The Discourse of Culture and Identity in National and Transnational Contexts** Christopher Jenks, Jackie Lou, Aditi Bhatia, 2017-10-02 This collection examines and uses discourse to promote a better understanding of culture and identity with the primary goal of advancing an understanding of how discourse can be used to examine social and linguistic issues Many of the contributions explore how the formation of culture and identity is shaped by national and transnational issues such as migration immigration technology and language policy The collection contributes to a better understanding of the process of intercultural communication research as each author takes a different theoretical or methodological approach to examining discourse Although different aspects of discourse are analyzed in this collection each contribution examines issues and concepts that are central to understanding and carrying out intercultural communication research e g structure and agency static and dynamic cultural constructs sociolinguistic scales power and discourse othering and alienness native and non native This book was originally published as a special issue of Language and Intercultural Communication **The Multilingual Turn** Stephen

May, 2013-07-24 Drawing on the latest developments in bilingual and multilingual research The Multilingual Turn offers a critique of and alternative to still dominant monolingual theories pedagogies and practices in SLA TESOL and bilingual education Critics of the monolingual bias argue that notions such as the idealized native speaker and related concepts of interlanguage language competence and fossilization have framed these fields inextricably in relation to monolingual speaker norms In contrast these critics advocate an approach that emphasizes the multiple competencies of bi multilingual learners as the basis for successful language teaching and learning This volume takes a big step forward in re situating the issue of multilingualism more centrally in applied linguistics and in so doing making more permeable its key sub disciplinary boundaries particularly those between SLA TESOL and bilingual education It addresses this issue head on bringing together key international scholars in SLA TESOL and bilingual education to explore from cutting edge interdisciplinary perspectives what a more critical multilingual perspective might mean for theory pedagogy and practice in each of these fields *The Routledge Handbook of Migration and Language* Suresh Canagarajah, 2017-02-03 Winner of AAAL Book Award 2020 Shortlisted for the BAAL Book Prize 2018 The Routledge Handbook of Migration and Language is the first comprehensive survey of this area exploring language and human mobility in today's globalised world This key reference brings together a range of interdisciplinary and multidisciplinary perspectives drawing on subjects such as migration studies geography philosophy sociology and anthropology Featuring over 30 chapters written by leading experts from around the world this

book Examines how basic constructs such as community place language diversity identity nation state and social stratification are being retheorized in the context of human mobility Analyses the impact of the mobility turn on language use including the parallel multilingual turn and translanguaging Discusses the migration of skilled and unskilled workers different forms of displacement and new superdiverse and diaspora communities Explores new research orientations and methodologies such as mobile and participatory research multi sited ethnography and the mixing of research methods Investigates the place of language in citizenship educational policies employment and social services The Routledge Handbook of Migration and Language is essential reading for those with an interest in migration studies language policy sociolinguistic research and development studies

**Language, Capitalism, Colonialism** Monica Heller,Bonnie McElhinny,2017-10-25 Providing an original approach to the study of language by linking it to the political and economic contexts of colonialism and capitalism Heller and McElhinny reinterpret sociolinguistics for a twenty first century audience They map out a critical history of how language serves as a terrain for producing and reproducing social inequalities The book organized chronologically and beginning in the period of colonial expansion in the sixteenth century covers the development of the modern nation state and then the fascist communist and universalist responses to the inequities such nations created It then moves through the two World Wars and the Cold War that followed as well as the shift to liberal democracy the welfare state and decolonization in the 1960s ending with the contemporary period characterized by a globalized economy and neoliberal politics since the 1980s Throughout the authors ask how ideas about language get shaped and by whom unevenly across sites and periods offering new perspectives on how to think about language that will both excite and incite further research for years to come

**The Language of Money** Annabelle Mooney,2018-04-27 Through a detailed examination of proverbs related to money this book offers a comprehensive critique of the prevailing everyday ideologies and discourses on money and paves the way toward establishing a new set of proverbs more conducive to financial equality and human well being The volume explores a variety of contexts to demonstrate the different aspects of the money system and the linguistic and social structures embedded within them including pay day loan websites gambling get rich self help books and new forms of currency Unpacking this complex relationship between people money and language in contemporary society this book is an ideal resource for students and scholars in language and communication sociolinguistics rhetoric sociology and media studies

**Blending Spaces** Arnd Witte, 2014-10-09 This book comprehensively analyzes the development of interculturally blended third spaces by the second language learner beginning with the linguistic and sociocultural imprints of the first language and culture on the mind and culminating in the proposal of

a phase model of the development of intercultural competence The foundational analysis of L1 mediated constructs is followed by an analysis of forms interaction concepts of identity and constructs of culture interculture thus shifting the object of analysis from the subjective to the intersubjective levels of construction and interaction The focus of the book is on the gradual development of interculturally blended third spaces in the mind of the learner as genuinely new bases for construction This book takes an interdisciplinary approach drawing on research in cultural psychology linguistic anthropology critical theory language acquisition and second language learning and shows how culture and interculture need to be emphasized as an integral part of second language learning      *Education and the Discourse of Global Neoliberalism* John Gray, John P. O'Regan, Catherine Wallace, 2021-05-22 This book investigates neoliberalism in education and explains how it is a complex phenomenon which takes on local characteristics in diverse geopolitical economic and cultural settings while retaining a core commitment in all its manifestations to market fundamentalism Neoliberalism that set of beliefs and practices which has become the economic orthodoxy of global preference since the 1980s appears remarkably resilient despite the US financial crisis of 2008 and the subsequent implementation of austerity in the massively indebted nations of the European Union This book addresses the phenomenon of neoliberalism in education and focuses on school and higher education settings in Ireland the UK Singapore and Hong Kong Specifically it addresses the role of language and semiosis in the reconfiguration of global educational practices along increasingly marketised lines At the same time the nature of the counter hegemonic discourses also in circulation in these sectors is also considered Collectively the chapters in the book seek to shed light on the possibilities for resistance and the prospect of change from a variety of theoretical and inter cultural perspective The chapters in this book were originally published in a special issue of the journal Language and Intercultural Communication      *Multilingual Education* Jasone Cenoz, Durk Gorter, 2015 This cutting edge volume explores holistic trends in multilingualism analysing the processes of both becoming multilingual and being multilingual Multilingualism has increased in recent years due to globalisation transnational mobility and the spread of Information and Communications Technology ICT This volume explores some of the trends in the study of multilingual education by putting together research studies that analyse the processes of both becoming multilingual and being multilingual in educational contexts Publisher's website      [The Language of Organizational Styling](#) Lionel Wee, 2015-01-22 This interdisciplinary book length study of the linguistics of organizational styling presents an innovative take on the notion of style      [Inequalities and the Paradigm of Excellence in Academia](#) Fiona Jenkins, Barbara Hoenig, Susanne Maria Weber, Andrea Wolfram, 2022-06-30 This volume examines the criteria of excellence producing inequalities of gender in the daily working environment and evaluation of academics Policymakers have increasingly placed emphasis on gender equality as part of a strategy for achieving research excellence and efforts to reduce gender bias have become mainstream This book suggests that this goal has remained elusive in practice due to continuing under representation of women across many academic and scientific fields Questioning the old

structures of male dominance still prevalent in national research policy the book explores the effects of institutional values and practices on the careers of academics particularly the academic identities of women and their career developments It focuses on case studies drawn from Europe while also highlighting the rise of new forms of public management and a neoliberal framing of the value of academic work that have a much broader global reach Using participatory research the book analyses contemporary forms of gendered excellence in an intersectional and international perspective It will be of interest to junior senior researchers teachers and scholars in sociology education gender studies history political science and science and technology studies
