*Researching the Military* Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02. *Researching the Military* focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional, and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work, and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology, and security studies in general.

**Practice, Pleadings, and Forms in Civil Actions in Courts of Record in the State of New York ... Second Edition, Etc** John L. TILLINGHAST (and SHEARMAN (Thomas G.)), 1865      **Practice, Pleadings, and Forms in Civil Actions in Courts of Record in the State of New York** John L. Tillinghast, M. L. Martin, 1870      The Economics of Defense Industry Thomas-Durell Young, 2023-10-17. This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive, technologically advanced, and that requires a highly skilled labour force. Since the end of the cold war, Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation. In all cases, government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand. The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions. Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments. The chapters in this volume posit that efforts to rationalise industrial capacity and innovation

to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis Kanene Sharon Sibanda,2025-02-15 The Black SANDF soldiers experiences are unique shaped by the armed struggle long and repeated deployments constant threats and repeated exposure to the horrors of battle Traumatized Black SANDF members journeys reveal the profound impacts of combat trauma often echoing the symptoms of CPTSD characterised by an ongoing sense of danger and a fractured sense of self The interpretation of these soldiers lived realities interconnects creating an intricate pattern of grief and resilience stitched into the camouflage fabric of their military and psychological reality In the crucible of their pain they find solace in shared silence their sacred cries resounding through history s corridors We witness their raw truths as we navigate the shadows of their combat experiences The legacy of fallen and surviving soldiers etched in blood and sacrifice honours the unyielding spirit of the human soul dedicated to the nation s greater good These lived stories privilege us with an honoured glimpse into the psyche of serving force members haunted by our past and continuous military engagements These soldiers stories forge a collective narrative of resilience highlighting their enduring spirit in the face of trauma and adversity within an integrated SANDF Kanene armed with these soldiers self insights emerges as the guiding light navigating through the dark psychological recesses of lived trauma to bring hope and healing to those who have served and continue to serve their country
