South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Kanene Sharon Sibanda, 2025-02-15 The Black SANDF soldiers' experiences are unique, shaped by the armed struggle, long and repeated deployments, constant threats and repeated exposure to the horrors of battle. Traumatized Black SANDF members' journeys reveal the profound impacts of combat trauma, often echoing the symptoms of CPTSD, characterised by an ongoing sense of danger and a fractured sense of self. The interpretation of these soldiers' lived realities interconnects, creating an intricate

pattern of grief and resilience stitched into the camouflage fabric of their military and psychological reality In the crucible of their pain they find solace in shared silence their sacred cries resounding through history's corridors We witness their raw truths as we navigate the shadows of their combat experiences The legacy of fallen and surviving soldiers etched in blood and sacrifice honours the unyielding spirit of the human soul dedicated to the nation's greater good These lived stories privilege us with an honoured glimpse into the psyche of serving force members haunted by our past and continuous military engagements These soldiers stories forge a collective narrative of resilience highlighting their enduring spirit in the face of trauma and adversity within an integrated SANDF Kanene armed with these soldiers self insights emerges as the guiding light navigating through the dark psychological recesses of lived trauma to bring hope and healing to those who have served and continue to serve their country
