SPEAKER SYSTEM

WS-A80

Operating Instructions

Panasonic

Before operating this set, please read these instructions completely.

GENERAL

- This speaker system is a 2-way bass-reflex type speaker system incorporating a 20cm (8") woofer and a Twin Bessel horn tweeter having constant directivity.
 - It is designed to accept a continuous program input of 160W. This speaker system is ideally suited as a main speaker. The compact design assures full portability and easy installation.
 - The tweeter and woofer are each equipped with an auto-reset type thermal protector to protect them against excessive input levels.
 - The Twin Bessel horn is designed to minimize the reflection of sound from the open end of the horn and to provide a directivity of 60° (horizontal) by 60° (vertical). This improvement in the constant directivity is effective in eliminating feedback.
 - The enclosure is a resin molded type and can be set in any desired position.
- The recessed handles and close-contour design prevent impact damage in transit, while the rigid, weather and temperature resistant cabinet insures long-term reliability.
- The enclosure features a stacking structure to enable secure stacking of speakers.
- The front of the enclosure is covered with a punched metal grille to protect the woofer and tweeter.
 - The speaker input jacks (phone plugs) can be replaced with XLR-type connectors.
