[Lactivism](#) Courtney Jung, 2015-11-24 Breastfeeding has become a moral imperative in 21st century America Once upon a time this moral imperative made sense Breastfeeding was believed to bring multiple health benefits including increased resistance to many chronic and even fatal diseases protection against Sudden Infant Death Syndrome SIDS improved intelligence and countless immunities The irony now however is that breastfeeding continues to gain moral force just as scientists are showing that its benefits have been greatly exaggerated In 2012 the American Academy of Pediatrics and the Center for Disease Control and Prevention declared the failure to breastfeed a public health issue thus

placing bottle feeding on par with smoking obesity and unsafe sex Recently politicians too have launched highly visible breastfeeding initiatives such as former New York Mayor Michael Bloomberg s well publicized Latch On campaign And meanwhile women who don t breastfeed their babies have found themselves with a lot of explaining to do Physicians public health officials and other mothers are pressuring them to breastfeed even though the best science shows that the advantages of doing so are minimal at best What is going on In *Lactivism* Courtney Jung offers the most deeply researched and far reaching critique of the breastfeeding imperative to date Drawing on a wide range of evidence from rigorously peer reviewed scientific research to interviews with physicians politicians business interests activists social workers and mothers from across the social and political spectrum Jung presents an eye opening account of how a practice that began as an alternative to Big Business has become Big Business itself *Official Gazette of the United States Patent and Trademark Office* United States. Patent and Trademark Office,2000 *Diversity and Division in Medicine* Anne Digby,2006 This is an innovative investigation of pluralism in health care Using both extensive archival material and oral histories it examines relationships between indigenous healing missionary medicine and western biomedicine The book includes the different regions within South Africa although focusing in most detail on the Cape the earliest area of white settlement In a wide ranging survey the division in medicine between western and indigenous medicine is analysed through an exploration of the evolving practices of healers missionaries doctors and nurses The book considers the extent to which there was a strategic crossing of boundaries in the construction of hybrid practices by these practitioners and the extent to which patients pursued health by sampling diverse care options Starting with missionary penetration during the early nineteenth century the volume outlines interventions by the colonial state in medicine and public health and the continued resilience of indigenous healing in the face of this The book ends by relating past to present in scrutinising the legacy of historical structures including those of the apartheid state for current health care and in briefly discussing the huge challenges that the HIV Aids pandemic poses in impacting on them The book thus provides an inclusive history of medicine for the New South Africa **American Journal of Obstetrics and Gynecology** ,1927 **Breastfeeding Management for the Clinician: Using the Evidence** Marsha Walker,2021-12-13 Breastfeeding Management for the Clinician Using the Evidence is the perfect tool for busy clinicians who need a quick accurate and current reference It provides the essentials of breastfeeding management without the lengthy overly detailed explanations found in other large texts Now in an updated and modernized fifth edition this unique resource features new sections on LGBTQ families milk sharing exclusive pumping new breastfeeding products breastfeeding in emergencies additional feeding care plans and access to downloadable patient care plans and helpful handouts that can be easily shared with patients Breastfeeding Management for the Clinician Using the Evidence Fifth Edition includes literature reviews while covering incidence etiology risk factors prevention prognosis and implications interventions expected outcomes care plans and clinical algorithms **The Everything Breastfeeding Book** Suzanne Fredregill,Ray
