Library of Congress Subject Headings Library of Congress, Beyond Digital Paul Leinwand, Mahadeva Matt Mani, 2022-01-04 Two world renowned strategists detail the seven leadership imperatives for transforming companies in the new digital era Digital transformation is critical But winning in today's world requires more than digitization It requires understanding that the nature of competitive advantage has shifted and that being digital is not enough In Beyond Digital Paul Leinwand and Matt Mani from Strategy PwC's global strategy consulting business take readers inside twelve companies and how they have navigated through this monumental shift from

Philips's reinvention from a broad conglomerate to a focused health technology player to Cleveland Clinic's engagement with its broader ecosystem to improve and expand its leading patient care to more locations around the world to Microsoft's overhaul of its global commercial business to drive customer outcomes. Other case studies include Adobe, Citigroup, Eli Lilly, Hitachi, Honeywell, Inditex, Komatsu, STC Pay, and Titan. Building on a major new body of research, the authors identify the seven imperatives that leaders must follow as the digital age continues to evolve. Reimagine your company's place in the world. Embrace and create value via ecosystems. Build a system of privileged insights with your customers. Make your organization outcome oriented. Invert the focus of your leadership team. Reinvent the social contract with your people. Disrupt your own leadership approach. Together, these seven imperatives comprise a playbook for how leaders can define a bolder purpose and transform their organizations.

FPD industry includes Exclusive in depth interviews with 28 top executives in the industry. Over 250 information packed figures, tables, and pictures. Proprietary intelligence not available anywhere else. In 2006, competitive conditions in the flat panel display FPD industry will change significantly. The era in which competition was primarily based on increasing investment and glass substrate sizes is over. Henceforth, overall capability including parts, material strategy, and equipment strategy will become the decisive factor. By 2010, parts and material costs will account for 80% of the total cost of large size LCD panels, which will drive future market expansions; thus, parts and materials will make up most of the value addition in panels. Leading panel makers are starting to reinforce their cooperative relationships with parts and material makers as well as with equipment makers.
