Horace Vernet and the Thresholds of Nineteenth-Century Visual Culture Daniel Harkett, Katie Hornstein, 2017-03-07 This collection reconsiders the life and work of Emile Jean Horace Vernet 1789 1863 presenting him as a crucial figure for understanding the visual culture of modernity The book includes work by senior and emerging scholars showing that Vernet

was a multifaceted artist who moved with ease across the thresholds of genre and media to cultivate an image of himself as the embodiment of modern France In tune with his times skilled at using modern technologies of visual reproduction to advance his reputation Vernet appealed to patrons from across the political spectrum and made works that nineteenth century audiences adored Even Baudelaire who reviled Vernet and his art and whose judgment has played a significant role in consigning Vernet to art historical obscurity acknowledged that the artist was the most complete representative of his age For those with an interest in the intersection of art and modern media politics imperialism and fashion the essays in this volume offer a rich reward

A Planetary Lens Audrey Goodman,2021-10 A Planetary Lens explores how women writers and photographers revise and reimagine landscape identity and history in the U S West

The Living Line Robin Veder,2015-04-07 Robin Veder s *The Living Line* is a radical reconceptualization of the development of late nineteenth and early twentieth century American modernism The author illuminates connections among the histories of modern art body cultures and physiological aesthetics in early twentieth century American culture fundamentally altering our perceptions about art and the physical and the degree of cross pollination in the arts *The Living Line* shows that American producers and consumers of modernist visual art repeatedly characterized their aesthetic experience in terms of kinesthesia the sense of bodily movement They explored abstraction with kinesthetic sensibilities and used abstraction to achieve kinesthetic goals In fact the formalist approach to art was galvanized by theories of bodily response derived from experimental physiological psychology and facilitated by contemporary body cultures such as modern dance rhythmic gymnastics physical education and physical therapy Situating these complementary ideas and exercises in relation to enduring fears of neurasthenia Veder contends that aesthetic modernism shared industrial modernity s objective of efficiently managing neuromuscular energy In a series of finely grained and interconnected case studies Veder demonstrates that diverse modernists associated with the Armory Show the Soci t Anonyme the Stieglitz circle especially O Keeffe and the Barnes Foundation participated in these discourses and practices and that kin aesthetic modernism greatly influenced the formation of modern art in America and beyond This daring and completely original work will appeal to a broad audience of art historians historians of the body and American culture in general

No Laughing Matter Angela Rosenthal,David Bindman,2015-11-22 In the wake of the Charlie Hebdo attacks this collection which gathers scholars in the fields of race ethnicity and humor seems especially urgent Inspired by Denmark s Muhammad cartoons controversy the contributors inquire into the role that racial and ethnic stereotypes play in visual humor and the thin line that separates broad characterization as a source of humor from its power to shock or exploit The authors investigate the ways in which humor is used to demean or give identity to racial national or ethnic groups and explore how humor works differently in different media such as cartoons photographs film video television and physical performance This is a timely and necessary study that will appeal to scholars across disciplines

Ecological Aesthetics Nathaniel Stern,2018-07-03 With this poetic and scholarly collection of stories about art artists and their

materials Nathaniel Stern argues that ecology aesthetics and ethics are inherently entwined and together act as the cornerstone for all contemporary arts practices An ecological approach says Stern takes account of agents processes thoughts and relations Humans matter concepts things not yet things politics economics and industry are all actively shaped in and as their interrelation And aesthetics are a style of and orientation toward thought and thus action Including dozens of color images this book narrativizes artists and artworks ranging from print to installation bio art to community activism contextualizing and amplifying our experiences and practices of complex systems and forces our experiences and practices of thought Stern an artist himself writes with an eco aesthetic that continually unfurls artful tactics that can also be used in everyday existence

Play Among Books Miro Roman,Alice_ch3n81,2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science

The Routledge Companion to Photography and Visual Culture Moritz Neumüller,2018-09-21 The Routledge Companion to Photography and Visual Culture is a seminal reference source for the ever changing field of photography Comprising an impressive range of essays and interviews by experts and scholars from across the globe this book examines the medium s history its central issues and emerging trends and its much discussed future The collected essays and interviews explore the current debates surrounding the photograph as object art document propaganda truth selling tool and universal language the perception of photography archives as burdens rather than treasures the continual technological development reshaping the field photography as a tool of representation and control and more One of the most comprehensive volumes of its kind this companion is essential reading for photographers and historians alike

From Point to Pixel Meredith Hoy,2017-01-03 In this fiercely ambitious study Meredith Anne Hoy seeks to reestablish the very definitions of digital art and aesthetics in art history She begins by problematizing the notion of digital aesthetics tracing the nineteenth and twentieth century movements that sought to break art down into its constituent elements which in many ways predicted and paved the way for our acceptance of digital art Through a series of case studies Hoy questions the separation between analog and digital art and finds that while there may be sensual and experiential differences they fall within the same technological categories She also discusses computational art in which the sole act of creation is the building of a self generating algorithm The medium isn t the message what really matters is the degree to which the viewer can sense a creative hand in the art

Against Immediacy William Kaizen,2016-07-05 Against Immediacy is a history of early video art considered in relation to television in the United States during the 1960s and 1970s It examines how artists questioned the ways in which the people were

ideologically figured by the commercial mass media During this time artists and organizations including Nam June Paik Juan Downey and the Women's Video News Service challenged the existing limits of the one to many model of televisual broadcasting while simultaneously constructing more democratic bottom up models in which the people mediated themselves Operating at the intersection between art history and media studies Against Immediacy connects early video art and the rise of the media screen in gallery based art to discussions about participation and the activation of the spectator in art and electronic media moving from video art as an early form of democratic media practice to its canonization as a form of high art

Playing with Earth and Sky James Housefield, 2016-07-05 *Playing with Earth and Sky* reveals the significance astronomy geography and aviation had for Marcel Duchamp widely regarded as the most influential artist of the past fifty years Duchamp transformed modern art by abandoning unique art objects in favor of experiences that could be both embodied and cerebral This illuminating study offers new interpretations of Duchamp's momentous works from readymades to the early performance art of shaving a comet in his hair It demonstrates how the immersive spaces and narrative environments of popular science from museums to the modern planetarium prepared paths for Duchamp's nonretinal art By situating Duchamp's career within the transatlantic cultural contexts of Dadaism and Surrealism this book enriches contemporary debates about the historical relationship between art and science This truly original study will appeal to a broad readership in art history and cultural studies

Narratives Unfolding Martha Langford, 2017-07-18 Somewhere between global and local the nation still lingers as a concept National art histories continue to be written some for the first time while innovative methods and practices redraw the boundaries of these imagined communities *Narratives Unfolding* considers the mobility of ideas transnationalism and entangled histories in essays that define new ways to see national art in ever changing nations Examining works that were designed to reclaim or rethink issues of territory and dispossession home and exile contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational

exchange of knowledge and its visual formations Essays showcase revealing moments of modern and contemporary art history in Canada Egypt Iceland India Ireland Israel Palestine Romania Scotland Turkey and the United Arab Emirates paying particular attention to the agency of institutions such as archives art galleries milestone exhibitions and artist retreats Old and emergent art cities including Cairo Dubai New York and Vancouver are also examined in light of avant gardism cosmopolitanism and migration Narratives Unfolding is both a survey of current art historical approaches and their connection to the source art making and art experience happening somewhere

Photography, Anthropology and History Elizabeth Edwards, 2016-04-22 Photography Anthropology and History examines the complex historical relationship between photography and anthropology and in particular the strong emergence of the contemporary relevance of historical images Thematically organized and focusing on the visual practices developed within anthropology as a discipline this book brings together a range of contemporary and methodologically innovative approaches to the historical image within anthropology Importantly it also demonstrates the ongoing relevance of both the historical image and the notion of the archive to recent anthropological thought As current research rethinks the relationship between photography and anthropology this volume will serve as a stimulus to this new phase of research as an essential text and methodological reference point in any course that addresses the relationship between anthropology and visuality

Digital Approaches to Inclusion and Participation in Cultural Heritage Danilo Giglito, Luigina Ciolfi, Eleanor Lockley, Eirini Kaldeli, 2023-02-24 This edited book brings together best examples and practices of digital and interactive approaches and platforms from a number of projects based in European countries to foster social inclusion and participation in heritage and culture It engages with ongoing debates on the role of culture and heritage in contemporary society relating to inclusion and exclusion openness access and bottom up participation The contributions address key themes such as the engagement of marginalised communities the opening of debates and new interpretations around socially and historically contested heritages and the way in which digital technologies may foster more inclusive cultural heritage practices They will also showcase examples of work that can inspire reflection further research and also practice for readers such as practice focused researchers in both HCI and design Indeed as well as consolidating the achievements of researchers the contributions also represent concrete approaches to digital heritage innovation for social inclusion purposes The book's primary audience is academics researchers and students in the fields of cultural heritage digital heritage human computer interaction digital humanities and digital media as well as practitioners in the cultural sector

From Snapshots to Social Media - The Changing Picture of Domestic Photography Risto Sarvas, David M. Frohlich, 2011-02-09 From Snapshots to Social Media describes the history and future of domestic photography as mediated by technological change Domestic photography refers to the culture of ordinary people capturing sharing and using photographs and is in a particular state of flux today as photos go digital The book argues that this digital era is the third major chapter in the 170 year history of the area following the portrait and Kodak eras of the past

History shows that despite huge changes in photographic technology and the way it has been sold people continue to use photographs to improve memory support communication and reinforce identity The future will involve a shift in the balance of these core activities and a replacement of the family album with various multimedia archives for individuals families and communities This raises a number of issues that should be taken into account when designing new technologies and business services in this area including the ownership and privacy of content multimedia standards home ICT infrastructure and younger and older users of images The book is a must for designers and engineers of imaging technology and social media who want a better understanding of the history of domestic photography in order to shape its future It will also be of value to students and researchers in science and technology studies and visual culture as a fascinating case study of the evolving use of photographs and photographic technology in Western society
