### **Lessons from the Masters**

Robert Gendler, 2013-08-13 There are currently thousands of amateur astronomers around the world engaged in astrophotography at a sophisticated level. Their ranks far outnumber professional astronomers doing the same and their contributions both technically and artistically are the dominant drivers of progress in the field today. This book is a unique collaboration of individuals world renowned in their particular area and covers in detail each of the major sub disciplines of astrophotography. This approach offers the reader the greatest opportunity to learn the most current information and the latest techniques directly from the foremost innovators in the field today. Lessons from the Masters includes a brilliant body of recognized leaders in astronomical imaging assembled by Robert Gendler who delivers the most current sophisticated and useful information on digital enhancement techniques in astrophotography available today. Each chapter focuses on a particular technique but the book as a whole covers all types of astronomical image processing including processing of events such as eclipses using DSLRs and deep sky, planetary, widefield and high resolution astronomical image processing. Recognized contributors include deep sky experts such as Jay GaBany, Tony Hallas and Ken Crawford, high resolution planetary expert Damian Peach and the founder of TWAN, The World at Night, Babak A. Tafreshi. A large number of illustrations, 150/75 in color, present the challenges and accomplishments involved in the processing of astronomical images by enthusiasts.
