Baker, Daniel J. Benny, 2016-04-19 Creating a sound security plan involves understanding not only security requirements but also the dynamics of the marketplace employee issues and management goals Emphasizing the marriage of technology and physical hardware this volume covers intrusion detection access control and video surveillance systems including networked video It addresses the reasoning behind installations how to work with contractors and how to develop a central station for monitoring It also discusses government regulations Case examples demonstrate the alignment of security program management techniques with not only the core physical security elements and technologies but also operational security practices Touching Space, Placing Touch Mark Paterson, Martin Dodge, 2016-02-24 Given that touch and touching is so central to everyday embodied existence why has it been largely ignored by social scientists for so long What is the place of touch in our mixed spaces of sociality work domesticity recreation creativity or care What conceptual resources and academic languages can we reach towards when approaching tactile activities and somatic experiences through the body How is this tactile landscape gendered How is touch becoming revisited and revalidated in late capitalism through animal encounters tourism massage beauty treatments professional medicine everyday spiritualities or the aseptic touch free spaces of automated toilets How is touch placed and valued within scholarly fieldwork and research itself integral as it is to the production of embodied epistemologies How is touch involved in such aesthetic experiences as shaping objects in sand or encountering fleshly bodies within a painting The goal of this edited collection *Touching Space Placing Touch* is twofold 1 To further advance theoretical and empirical understanding of touch in social science scholarship by focussing on the differential social and cultural meanings of touching and the places of touch 2 To develop a multi faceted and interdisciplinary explanations of touch in terms of individual and social life personal experiences and tasks and their related cultural contexts The twelve essays in this volume provide a rich combination of theoretical resources methodological approaches and empirical investigation Each chapter takes a distinct aspect of touch within a particular spatial context exploring this through a mixture of sustained empirical work critical theories of embodiment philosophical and psychoanalytic approaches to gendered touch and touching or the relationship between visual and non visual culture to articulate something of the variety and variability of touching experiences The contributors are a mixture of established and emerging researchers within a growing interdisciplinary field

of scholarship yet the volume has a strong thematic identity and therefore represents the formative collection concerning the multiple senses of touch within social science scholarship at this time      **Facility Manager's Guide to Security** P.E.
