***The International Baccalaureate Diploma Program and the School Library*** Anthony Tilke, 2011-03-11 This book, a blend of practice and theory, shows how the school library can contribute to the success of the International Baccalaureate Diploma Program. Written for librarians in schools that are applying to offer the program as well as those who already work with it, *The International Baccalaureate Diploma Program and the School Library* Inquiry Based Education provides information and strategies specifically relating libraries to the IBDP. The guide includes information about the IBDP ranging from the subject matrix to unique aspects of the program such as the Theory of Knowledge course, the Extended Essay requirement, and the Learner Profile. The book also discusses other important features of IB programs such as internationalism and academic honesty. Finally, it blends theory and practice by providing details and findings from the only two-year research study to follow students and teachers through the IBDP. **Rhetorical Spaces** Lorraine Code, 2013-03-07 The arguments in this book are informed at once by the moral, political implications of how knowledge is produced and circulated and by issues of gendered subjectivity. In their critical dimension, these lucid essays engage with the incapacity of the philosophical mainstream's dominant epistemologies to offer regulative principles that guide people in the epistemic projects that figure centrally in their lives. In its constructive dimension, *Rhetorical Spaces* focuses on developing productive case-by-case analyses of knowing other people in situations where social, political inequalities create asymmetrical patterns of epistemic power and privilege.

ecologically how self identity has evolved historically how thinking arises from our social contexts rather than from inside our heads Offering solutions rather than theory to develop a new post internal psychology How to Rethink Mental Illness will be essential reading for every mental health professional as well as anyone who has either experienced a mental illness themselves or helped a friend or family member who has

**Portalism** Jeffrey Laird, 2022-11-25 The mind is not the brain The locus of our consciousness is in the world Portalism embraces radical phenomenal externalism and represents a contemporary form of dualism that rejects materialist assumptions of mind brain identity As a philosophy of mind Portalism breaks with traditional thinking in two significant ways first by holding that consciousness is in fact a fifth fundamental force of nature endowed with behavioural attributes not unlike that of gravity and second by arguing how consciousness inheres in all living organisms regardless of their biological sophistication Portalism compels us to reject traditional monist theories about the nature of consciousness and boldly enter into a new way of thinking about our own reality
