compare our readers to a standard score or do we need to diagnose a reader's needs Which area of reading does this tool assess How can we use the information from assessments to inform our instruction What information does a particular assessment tell us and what doesn't it tell us What additional information do we need about a reader to understand his or her learning needs The book emphasizes the importance of triangulating data by using varied sources both formal and informal and across multiple intervals It explains the power of looking at different types of assessments side by side with displays to find patterns or inconsistencies What's more students are included as valuable sources of data Letting students in on the process of assessment is key to helping them set goals monitor their own progress and celebrate growth When assessment is viewed in this way instruction can meet high standards and still be developmentally appropriate

Promoting Academic Readiness for African American Males with Dyslexia Shawn Anthony Robinson, Corey Thompson, 2019-11-13 This timely book tackles underlying issues that see disproportionate numbers of African American males with dyslexia undiagnosed, untreated, and falling behind their peers in terms of literacy achievement. Considering factors including dialectic linguistic difference, limited phonological awareness, and the intersectionality of gender, language, and race, the studies included in this volume illustrate how classroom practices at preschool and elementary levels are failing to support students at risk of reading and writing difficulties. Promoting Academic Readiness for African American Males with Dyslexia shows that it is possible to provide every girl and boy, and particularly African American boys, with effective support and appropriate interventions enabling them to read at a level that is conducive to ongoing academic performance and success. This argues that the authors of this volume is vital to the social, emotional, moral, and intellectual development of our society. This edited volume was originally published as a special issue of Reading Writing Quarterly: Overcoming Learning Difficulties. It will be of great interest to graduate and postgraduate students, researchers, and academics in the field of African American Education, Educational Equity, Race studies, Multiple learning difficulties, and Literacy development.
