Cognitive Support for Learning

Piet A. M. Kommers, 2004 This book addresses the various aspects of computational support systems for learners nowadays It highlights in particular those learning aspects that rely heavily upon one's imagination of knowledge and new ideas The question is how learners may become more effective through the use of highly graphical computer systems that now conquer almost every desk As an extrapolation of the constructionistic paradigm learning is seen here as a process of conceptual design Witnessing the prudent introduction of CADD software Computer Aided Drafting and Design it is obvious that users are generally scrupulous to accept the computer in the ideational stages of design This book presents both existing conceptual techniques and those estimated to arrive in the few coming years
