Watch out because when this madman goes on a rampage blood, brains, and body parts explode. The masses are dying, as well as those of Angel's family, from a mysterious disease brought on by the corrosive fulmination. However, when a beautiful escapee is rescued from an abusive military contingent, she reveals that her captured father is a bionuclear engineer who may hold a cure. In order to find and free the scientist, the team must negotiate with undesirables in barter towns, decimate well-equipped sex traffickers, battle mercenary militias, and clash with heavily armed slave barons. In order to accomplish this mission, Angel leads his teammates through a malicious environment rife with giant monstrosities, ghoul-infested cities, and nuclear wasteland in order to battle rogue military forces, cutthroats, and sinister organizations. They must infiltrate the ranks of warring factions and survivalist coalitions while constantly seeking arms and bartering for provisions vital to continuing their quest.
