**Philosophy** Manuel G. Velasquez, 1997 Combining clear accessible prose and many primary sources Velasquez provides a complete introduction to the discipline in a way that students find interesting and meaningful The text provides substantive attention to topics not often covered in most introductory texts including feminist theory continental philosophy and diversity Chapter organization encourages thinking and study in amounts students can master while examples and questions help connect philosophy to their own experiences Historical Showcases put development of topics into context for a big picture view Torch and Colonial Book Circular ,1888 The Publishers' Circular and Booksellers' Record ,1910 British Books ,1910 **The Publisher** ,1910 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1910 *Ethical Decision-Making in Management* Matej Drašček, Dana Mesner Andolšek, Adriana Rejc Buhovac, 2023-04-21 Moral pragmatism has been largely ignored in Business Ethics despite its natural attraction and the fact that it is prominent in philosophy and socio economic theories The main premise of the book is that the complexity of today s business world does not permit a grand ethical theory notwithstanding the different attempts made by scientists Moral pragmatism is the go to approach where the ethical decision making of managers varies dependent on different circumstances but it always integrates moral considerations Ethical decision making is no longer based simply on known rules but entails the constant dynamic interaction of circumstances the development of new rules managers past experiences their knowledge concerning ethics and skills of moral reasoning This book interweaves the postmodern approach to management studies and based on its innovative research reintroduces moral pragmatism in Business Ethics The combination of decision making theories philosophy and postmodernism paves the way for future novel research in Business Ethics making it an excellent resource for researchers academics and advanced students in the field of Business Ethics Practitioners on the other hand will benefit by improving their skills in ethical decision making and leadership **The Athenaeum** ,1855 **Forthcoming Books** Rose Arny, 1988-09 Dictionary Catalog of the History of the Americas New York Public Library.
