

Leadership Philosophy

Eisenhower said once said, "Leadership consists of nothing but taking responsibility for everything that goes wrong and giving your subordinates credit for everything that goes well".

(<http://www.maxwell.af.mil/au/awc/ins/electives/sld/sldsy.htm>)

Any deliberation about leadership must begin with the recognition of the fact that people want to be led. It is obvious to a great extent in the face of a calamity they find comfort and inspiration from their leaders. This is also true on a day-to-day basis. People tend to need and seek out guidance from strong leaders. "Leaders organize people—whether in a multinational corporation, a civic or charitable enterprise, a family business, or a high school." (Ashby and Miles, 2002)

According to Fairholm (1998), "one of the fundamental characteristics of leadership philosophy is its emphasis on a few values held in common by group members". These values are summed up in a vision of what the group and its members are and can become. "In the United States, the vision typically integrates values described first by the founding fathers.

These values include personal liberty, respect for life, justice, unity and happiness. These are widespread values that are essentially held and to the achievement of which most people dedicate their energies. Unless leaders tap these energizing values, they risk not being able to lead". (Fairholm, 1998)

A Policeman's life is riddled with high standards of selfless service. They have to have integrity and it is widely known that they have worked hard without waver since their inception.

A question which arises often is "How do you lead men in such a way that they will put their life on the line for you in an encounter situation in times of danger, and work twenty hours a day for weeks and sometimes months to resolve a crisis?" Of course this can be achieved through perpetual torture and extreme fear of the leading officer but Constables and Lieutenants under such a Captain will not give their job a 100 percent and the direct negative outcome of that will be that the team will not be functioning at full capacity. Firstly a leader must illustrate devotion and commitment to a life of service.

Secondly, it is of vital importance that a leader must be considerate and concerned about his people. (Puryear, Jr.) These tie in with the principle of observation of a role model. A leader's subordinates have to see that their leader is entirely dedicated to his job and doesn't only treat it as a job or simple tasks which have to be performed out of duty. A leader must display his love of the occupation so that his subordinates have a role model to follow. However, they will not follow him without question if he doesn't demonstrate affection for those under him. There is no need for physical forms of affection.

The kind of affection needed can simply be demonstrated by thoughtfulness from a leader. A leader needs t

Philosophy Of Leadership Essay:

Philosophy and Leadership Łukasz Sułkowski, Zdzisława Dacko-Pikiewicz, Katarzyna Szczepańska-Woszczyna, 2024-05-13

Philosophy and Leadership is an ambitious exploration of leadership's philosophical underpinnings from antiquity to the AI-driven future. The book journeys through history, gleaned insights from eminent philosophers and contextualizing their teachings to leadership. The book's foundational premise lies in the symbiosis of philosophy and leadership. Philosophy provides the why that drives the practices and decisions in leadership. This intricate connection is unfolded from the teachings of Confucius on virtue and ethics to the contemporary dialogues of Judith Butler on leadership identity. The book also delves into the evolution of leadership concepts through various eras: medieval times highlighting religious and scholastic perspectives; the Renaissance juxtaposing Machiavellian pragmatism with More's utopian ideals; and the Enlightenment era underscoring the importance of duty, skepticism, and rationality. An exciting aspect of the narrative is the amalgamation of evolution and leadership. By drawing parallels between Darwin's natural selection and leadership dynamics or Bergson's vitalism and intuitive leadership, the authors present a merger of biological evolution with leadership's ever-evolving paradigms. Finally, the concluding chapters reside in envisioning the future and reflect upon the impending synergy between AI and leadership. They emphasize the importance of amalgamating philosophical wisdom with the promises and challenges brought about by AI. The book will guide readers from the philosophical epochs of yore to the AI-predicted leadership paradigms of the future. By intertwining the enduring wisdom of philosophers with the dynamic nature of leadership, this book serves as a beacon for anyone aspiring to lead in any era. The Culture of Leadership in Contemporary China Paul Michael Linehan, 2017-12-06. The resurgence of Confucianism, Daoism, and Buddhism in the context of Chinese leadership values has emerged as a foundation for a new generation of leaders. The once-in-a-decade transition of China's leadership witnessed the ascendancy of a consensus-oriented fifth generation of leaders supporting a central authoritative figure whose priority will likely include the reconciliation of a waning communist ideology juxtaposed with its ostensible embrace of capitalism. How will Chinese Communist Party authority ideology and control address the encroachment of Western values that are centered on Roman law, Greek philosophy, and Christian religion, which prioritizes individual freedom and democracy? This book examines the role of traditional Chinese values, ideology, and philosophy as a key determinant in modern China's leadership succession. The author asserts that as communist ideology wanes, Chinese leaders will turn to their own traditional values found in Confucianism, Daoism, and Buddhism to establish legitimacy to rule as they seek to promote Chinese prominence and greatness in the world. The author's research assesses China's promotion of its own traditional values in rejecting foreign value influence. Since the inception of modern China at the beginning of the 20th century, China's leadership transition has evolved from an authoritarian cult-like dictatorship to a consensus-oriented process. In researching this metamorphosis, this book offers social, political, cultural, and historical perspectives to demonstrate that Chinese human values and character factors have risen in prominence as key elements in the mandate of Chinese governance and leadership. The author concludes that Chinese leadership values and its study and diffusion across sectors of Chinese leadership, including business organizations and government, have become a means to accentuate Chinese values as a viable alternative to Western claims of absolute and universally accepted values.

The Spirit of Servant-leadership Shann Ray Ferch, Larry C. Spears, 2011. In *The Spirit of Servant Leadership*, editors Shann Ferch and Larry Spears present an elegant and powerful approach to the nature of the leader-follower dynamic with a specific focus on many of the most radical, life-affirming, and transformative facets of the servant leader. In essence, *The Spirit of Servant Leadership* speaks to the soul of humanity by gathering a bright symphony of voices, including some of the current thought leaders of contemporary leadership. Among the many voices in this volume, Peter Block questions the very nature of leadership and draws people to more deeply understand the subtlety, humility, and self-transcendence required to develop one another individually and collectively. Larry C. Spears delves into the rich earth of holistic servant leadership and creates multidimensional growth and healing for the heart, mind, and spirit. Margaret Wheatley calls people to deeply consider the interior formation of leaders that create greater transparency, less command and control, and more willingness to be sincerely changed by others. James Autry unveils important truths about the process of insight involved in true servant leadership, and Shann Ferch speaks to the nature of intimacy and the profound questions of

forgiveness between people cultures and nations Robert Greenleaf former AT T executive and the contemporary founder of servant leadership said Behind every great achievement is a dreamer of great dreams The Spirit of Servant Leadership affirms people in all the complexity and nuance of the human endeavor and helps renew in readers the ability to dream great dreams *Conversations on Servant-Leadership* Shann Ray Ferch, Larry C.
