USMC Tactical Combat Casualty Care (TCCC / TC3) Guidelines

,2013-10-28 Tactical Combat Casualty Care Guidelines 28 October 2013 All changes to the guidelines made since those published in the 2010 Seventh Edition of the PHTLS Manual are shown in bold text The most recent changes are shown in red text These recommendations are intended to be guidelines only and are not a substitute for clinical judgment Basic Management Plan for Care Under Fire 1 Return fire and take cover 2 Direct or expect casualty to remain engaged as a

combatant if appropriate 3 Direct casualty to move to cover and apply self aid if able 4 Try to keep the casualty from sustaining additional wounds 5 Casualties should be extricated from burning vehicles or buildings and moved to places of relative safety Do what is necessary to stop the burning process 6 Airway management is generally best deferred until the Tactical Field Care phase 7 Stop life threatening external hemorrhage if tactically feasible Direct casualty to control hemorrhage by self aid if able Use a CoTCCC recommended tourniquet for hemorrhage that is anatomically amenable to tourniquet application Apply the tourniquet proximal to the bleeding site over the uniform tighten and move the casualty to cover

PHTLS--Pre-Hospital Trauma Life Support National Association of Emergency Medical Technicians (U.S.). Pre-Hospital Trauma Life Support Committee,1986 **PHTLS** ,2004-08 Prehospital Trauma Life Support PHTLS 5th Edition Military Version is a unique continuing education program that directly addresses trauma issues in the prehospital environment Following the publication cycle of ATLS Advanced Trauma Life Support by the Committee on Trauma of the American College of Surgeons the PHTLS program is designed to enhance and increase knowledge and skill in delivering trauma care The PHTLS textbook is the required book for the PHTLS course and is also ideal for use as the trauma component of a paramedic course or as a general reference book on trauma assessment and management Based on Prehospital Trauma Life Support PHTLS 5th Edition this military version combines both basic and advanced trauma concepts and skills in one definitive resource and features an entirely new chapter on evidence based guidelines for military medicine developed by the Committee on Tactical Combat Casualty Care Instructor resources available contact your sales representative for details A companion CD ROM with video presentations of the airway and spinal skills used in PHTLS is now included with every book It also contains information to download onto a PDA such as the Glasgow Coma Scale Revised Trauma Score Rule of 9 s Parkland Formula and Pediatric Vital Signs Content includes both basic and advanced training and has been updated to reflect the current ATLS guidelines complete with extensive references and suggested readings A consistent approach for every body region makes the book easy to follow and includes content on anatomy and physiology pathophysiology and assessment and management Includes chapters on Injury Prevention Golden Principles of Prehospital Trauma Care and Triage Transport and Trauma Systems Golden Principles of Trauma Care chapter includes information on prolonged transportation and additional treatment for a trauma patient when transportation times are greater than normal Case Scenarios with end of chapter solutions and Review Questions are included for every chapter to promote critical thinking and assess knowledge NAEMT Airway thoracic and spinal skills are presented in a heavily illustrated step by step format as Specific Skills The Airway Management and Ventilation chapter includes information on face to face intubation an alternate method of intubating trauma patients It also defines the difference between pharmacologically assisted intubation and rapid sequence intubation Includes information on tools such as pulse oximetry and capnography A difficult airway algorithm aids students in determining which airway adjuncts are appropriate and when they should be used Includes new

photographs geared specifically to the military Describes differences in procedures in a non combat situation and those in a combat situation The Military Medicine chapter written by the military provides special trauma considerations and protocols Military procedures are also found throughout the text where applicable **Eurocopter EC145 UH-72 Lakota Helicopter Flight Manual** , PHTLS National Association of Emergency Medical Technicians (U.S.). Pre-Hospital Trauma Life Support Committee,1999 The PREHOSPITAL TRAUMA LIFE SUPPORT PHTLS course is a unique continuing education program created from the real need in EMS education for additional training in the handling of trauma patients The course and the book PREHOSPITAL TRAUMA LIFE SUPPORT educate EMS personnel to identify stabilize treat and transport trauma patients with the highest level of care Prehospital patients who are stabilized and then quickly transported to an appropriate medical facility have the best chance of survival Identifying the mechanism of injury interpreting signs and symptoms understanding pathophysiology recognizing life threatening injuries and honing assessment skills all help the EMT to identify a trauma patient with multiple injuries and perform appropriate interventions PHTLS treats the trauma patient as a special entity with needs that differ from those of other patients Provides the most current information available through revised and updated chapters which adhere to the new 1998 ATLS guidelines Features comprehensive coverage for both basic and advanced level training Emphasizes the foundation of trauma care specifically understanding the mechanism of injury Includes in depth coverage of anatomy and physiology pathophysiology assessment and management of trauma to key body systems and regions Covers special patient populations including pediatrics geriatrics and pregnant patients to refresh the EMT regarding the importance of understanding the differences in physiology and presentation in these special populations Contains an entire chapter devoted to trauma care in the military because prehospital care in military situations is indisputably different than most civilian trauma situations Promotes clear practical understanding of the proper procedures for airway and spine skills with separate chapters that outline techniques and procedures with photos alongside text in a step by step format Includes chapter objectives summary and review questions to help the student self assess and pick out key points from the material Includes case scenarios and conclusions to promote critical thinking and allow the student to see real application of the concepts discussed in each chapter Provides a comprehensive glossary and bibliography to direct the reader when further study on a particular topic is desired Incorporates more than 300 full color illustrations many updated and enlarged from previous edition to aid in visual learning comprehension of material explanation of difficult concepts and keep reader s interest UH-72 Lakota Helicopter Flight Manual , *U.S. Army Special Warfare Medical Group SPECIAL OPERATIONS COMBAT MEDICAL SKILLS SUSTAINMENT COURSE: Tactical Combat Casualty Care (TCCC) Training For The SOF Advanced Tactical Practitioner (ATP)* , Scope a USSOCOM s principle function is to prepare SOF to carry out assigned missions This responsibility is derived from US Code Title 10 Section 167 In addition to organizing training and equipping SOF for unique missions medical education is fundamental to fulfilling this law Title 10 explicit

responsibilities include development of strategy doctrine tactics conducting specialized courses of medical instruction for commissioned and non commissioned officers and monitoring the medical education and professional certification of officers and enlisted personnel USSOCOM s medical education and certification responsibilities are inherent responsibilities of developing strategy doctrine and tactics b The Commander United States Special Operations Command CDRUSSOCOM has the service like responsibility of providing joint training and education venues that specialize in the art and science of joint Special Operations and its medical support These efforts complete the education and training picture within the Department of Defense DOD While each of the Services and the joint community provide education and training to fill a particular niche i e naval warfare air warfare joint warfare etc the Joint Special Operations Medical Training Center JSOMTC within USSOCOM and the Air Force s Pararescue PJ course provides training to fill the medical niche of joint SOF core task requirements SOF medical training and certification is force wide designed to initiate maintain and or enhance medical skills of those SOF medics and non medics who are required to perform the unique global multi discipline mission of USSOCOM Within the parameters of this directive as outlined by first reference Glossary Section III USSOCOM s primary responsibility is the medical education and training and certification of SOF A secondary responsibility is the training and education of select DOD interagency and international military personnel in the requirements capabilities and limitation s of joint special operations organizations Fostering a mutual understanding ensures the proper application of SOF and the enhancement of joint combined and interagency medical operations General In support of the Global War On Terrorism GWOT Special Operations medical personnel often find themselves providing care for both trauma and non traumatic medical emergencies beyond the Forward Edge of the Battlefield Area Forward Line Of Troops often in non linear environments that may be far forward of any supporting medical infrastructure This directive identifies the authority mission command relationships functions and responsibilities of the United States Special Operations Command as directed under Section 167 Title 10 of US Code to provide SOF medics with the required skill sets In order to define and administer this SOF Medical skill set USSOCOM has established a SOF Emergency Medical Services EMS State that is administered by the Command Surgeon Medics who successfully complete the required academic requirements as defined within this directive will thus be known as SOF Advanced Tactical Practitioners ATP Commerce Business Daily ,1999-08 *Tactical Emergency Medicine* Richard B. Schwartz, John G. McManus, Raymond E. Swienton, 2008 This brief practical text covers all aspects of tactical emergency medicine the practice of emergency medicine in the field rather than at the hospital during disasters police or military conflicts mass events and community incidents Key topics covered include hostage survival insertion and extraction techniques continuum of force medical support planning and triage medical evaluation in the incident zone care in custody medical control of incident site decontamination community communication and more Boxed definitions case scenarios and treatment algorithms are included The concluding chapter presents real world scenarios to run tactical teams through and

lists recommended training programs and continuing education Emergency and Trauma Care for Nurses and Paramedics Kate Curtis, Clair Ramsden, 2015-10-16 Highlighted skills cross references to the Clinical Skills chapter throughout text Over 30 new case studies Patient journey from pre hospital and emergency specific case studies Critical thinking questions at the end of chapters Chapter 35 Obstetric emergencies now includes Supporting a normal birth Rich's Vascular Trauma E-Book Todd E. Rasmussen, Nigel R M Tai, 2015-04-15 Published in association with the Society for Vascular Surgery SVS the newly updated edition of Rich's Vascular Trauma draws on civilian and military authorities from around the world to offer comprehensive and up to date coverage of the management of vascular injury Anatomic patterns of vascular trauma including extremity torso and cervical injury are reviewed in detail including the latest techniques to manage non compressible torso hemorrhage You'll have access to all of the current innovations across the broad spectrum of vascular trauma presented in a well organized fashion that allows you to quickly hone in on the most important issues in patient care and management Emphasizes the current management of civilian vascular injuries with an historical reflection of pioneering contributions from the battlefield Combines the largest existing database of military vascular trauma with the experience of one of the nation's premier civilian trauma centers Examines operative techniques and damage control for vascular traumas For the first time includes a novel International Perspectives section featuring fascinating accounts of vascular trauma from nine leading surgeons from five continents This section focuses on innovative surgical treatments tailored to locally developed pathways of care training solutions and regional injury patterns End to end coverage of all phases of acute vascular injury care including a new assessment of the implications of vascular trauma in the pre hospital setting i.e. point of injury and en route care Covers the emerging hot topics including endovascular procedures to manage trauma contemporary use of vascular shunts and a modern reappraisal of resuscitative endovascular balloon occlusion of the aorta for shock An innovative chapter on the systems approach and quality improvement in vascular trauma offering information and tactics for all providers wishing to understand how clinical systems underpin patient outcome and recovery from this challenging injury pattern A combined civilian and military authorship from internationally recognized authorities draws on the best available evidence experience and lessons learned from Afghanistan Iraq and the urban battlefield Expert Consult eBook version included with purchase This enhanced eBook experience allows you to search all of the text figures references and videos from the book on a variety of devices Damage Control in Trauma Care Juan Duchesne, Kenji Inaba, Mansoor Ali Khan, 2018-05-25 This book describes current evidence based guidelines for damage control interventions across the field of trauma care with the aim of enabling clinicians to apply them to best effect in daily clinical practice Emphasis is placed on the need for trauma surgeons and their teams to recognize that optimal damage control in severely traumatized patients depends upon the combination of immediate assessment resuscitation and correct surgical management The book opens by examining the evolution of damage control and the very significant impact that military damage control interventions have

had on civilian emergency health care through improvements as simple as bandaging and tourniquets Damage control measures in different specialties including neurosurgery orthopedics vascular surgery cardiothoracic surgery anesthesia and critical care are then covered in detail Readers will also find helpful information on a range of other important topics such as the role of pre hospital care providers damage control within the emergency department adjuncts of damage control and damage control in austere environments This book is a must read for all clinicians in the trauma field **Trauma, Seventh Edition** Kenneth L. Mattox, Ernest E. Moore, David V. Feliciano, 2012-08-22 The definitive guide to trauma surgery now in full color The seventh edition Trauma reaffirms its status as the leading comprehensive textbook in the field With a new full color design and a rich atlas of anatomic drawings and surgical approaches Trauma 7e takes you through the full range of injuries the trauma surgeon is likely to encounter The book also features timely coverage that explains how to care for war victims who may require acute interventions such as amputation Supported by numerous x rays CT scans plus informative tables throughout this trusted reference begins with an informative look at kinematics and the mechanisms of trauma injury Subsequent chapters provide useful background information on the epidemiology of trauma injury prevention the basics of trauma systems triage and transport and much more The next section meticulously reviews generalized approaches to the trauma patient from pre hospital care and managing shock to emergency department thoracotomy and the management of infections Trauma then delivers a clear organ by organ survey of treatment protocols designed to help you respond to any critical care situation with confidence no matter what body system is involved The remaining sections of the book will help you successfully handle specific challenges in trauma including alcohol and drug abuse and combat related wounds in addition to post traumatic complications such as multiple organ failure FEATURES NEW Trauma Atlas contains precise concept clarifying anatomical illustrations and proven surgical techniques that make common procedures more accessible than ever before High yield section on specific approaches to the trauma patient prepares you for the wide spectrum of cases in trauma critical surgery care including Disaster and mass casualty Rural trauma Management of shock Post injury hemotherapy and hemostasis Emergency department thoracotomy Diagnostic and interventional radiology Surgeon performed ultrasound Anesthesia and pain management Infection A to Z overview of the management of specific traumatic injuries Detailed discussion of the management of complications *Trauma* Ernest E.
