The Social Teaching of the Catholic Institutional Entrepreneurship and Policy Change Caner Bakir, Darryl S. L. Jarvis, 2018-02-19 This book is about the role of agents in policy and institutional change It draws on cross country case studies The focus on agency has been an important development enabling researchers to better reveal the causal mechanisms generating institutional change i e how institutional change actually takes place However past research has generally been limited to specific intellectual silos or scholarly domains of inquiry Policy scholars for example have tended to focus on the various mechanisms and levels at which agency operates drawing on institutionalist perspectives but not always actively contributing to institutionalist theory Institutional perspectives by contrast have tended to operate at macro levels of enquiry embracing the ontological primacy of institutions in processes of isomorphism but not necessarily contributing to or embracing policy perspectives that engage in more granular analyses of policy making processes implementation and the instantiation of institutional and policy change Despite the obvious complementarities of these two intellectual traditions it is surprising how little collaborative work or indeed cross fertilization of theory and analytical design

has occurred The core novelty of this volume is thus its focus on agential actors within institutional settings and processes of entrepreneurship that facilitate isomorphism and policy change The book s theoretical framework is grounded in variants of institutional theory especially historical sociological and organisational institutionalism and policy entrepreneurship literature The overall conclusion is that both institutionalists and public policy scholars have largely overlooked the importance of complex interactions between interdependent structures institutions and agents in processes of institutional and policy change *Resources in Education* ,2001-04 Energetically Developmental Leadership Alexander Lundberg,2023-09-02 Energetically Developmental Leadership Navigating Growth and Culture is a culmination of extensive leadership consultancy research and collaborative insights Crafted by a seasoned relational psychologist and psychotherapist this comprehensive book offers multifaceted perspectives on leadership growth In Part I delve into Constructive Developmental Theories uncovering the evolution from the Socialized to Self Transforming Mind The Leadership Agility Framework and Complexity Leadership illuminate agility s role in developmental growth Affective Neuroscience explores emotions intricate interplay in effective leadership while Positive Psychology equips with uplifting strategies Part II introduces the pivotal Inner Compass a tool for self awareness and growth Navigate energy dynamics by aligning emotions behaviors principles and facts for informed decisions This roadmap empowers leaders to make conscious choices fostering self aware interactions Part III explores diverse aspects self leadership guiding others and transformative change Practical strategies calibrate the Inner Compass for emotional navigation self trust and productive conversations Trust psychological safety and complexity leadership underscore leading others while Leading Transformation addresses organizational change embracing growth resilience and positive psychology Rooted in psychological principles and developmental theories this book bridges theory and practice It illuminates leadership s dynamic journey emphasizing its crucial role in shaping immersive cultures for ongoing organizational advancement It is an essential guide for leaders navigating growth fostering agility and cultivating transformative leadership **Debates** Canada.
