Murray, 2015 In this provocative book acclaimed social scientist and bestselling author Charles Murray shows us why we can no longer hope to roll back the power of the federal government through the normal political process Murray describes how civil disobedience backstopped by legal defense funds can make large portions of the 180 000 page Federal Code of Regulations unenforceable through a targeted program that identifies regulations that arbitrarily and capriciously tell us what to do **Telecommunications**, 2006 **By the People** Charles Murray, 2016-08-02 The American way of life built on individual liberty and limited government is on life support American freedom is being gutted Whether we are trying to run a business practice a vocation raise our families cooperate with our neighbors or follow our religious beliefs we run afoul of the government not because we are doing anything wrong but because the government has decided it knows better When we object that government can and does tell us Try to fight this and we'll ruin you In this provocative book acclaimed social scientist and bestselling author Charles Murray shows us why we can no longer hope to roll back the power of the federal government through the normal political process The Constitution is broken in ways that cannot be fixed even by a sympathetic Supreme Court Our legal system is increasingly lawless unmoored from traditional ideas of the rule of law The legislative process has become systemically corrupt no matter which party is in control But there's good news beyond the Beltway Technology is siphoning power from sclerotic government agencies and putting it in the

hands of individuals and communities The rediversification of American culture is making local freedom attractive to liberals as well as conservatives People across the political spectrum are increasingly alienated from a regulatory state that nakedly serves its own interests rather than those of ordinary Americans The even better news is that federal government has a fatal weakness It can get away with its thousands of laws and regulations only if the overwhelming majority of Americans voluntarily comply with them Murray describes how civil disobedience backstopped by legal defense funds can make large portions of the 180 000 page Federal Code of Regulations unenforceable through a targeted program that identifies regulations that arbitrarily and capriciously tell us what to do Americans have it within their power to make the federal government an insurable hazard like hurricanes and floods leaving us once again free to live our lives as we see fit By the People s hopeful message is that rebuilding our traditional freedoms does not require electing a right thinking Congress or president nor does it require five right thinking justices on the Supreme Court It can be done by we the people using America s unique civil society to put government back in its proper box *PC Mag* ,2008-08 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology
