Participatory Visual Methodologies in Global Public Health Claudia Mitchell,Marni Sommer,2018-10-18 Participatory Visual Methodologies in Global Public Health focuses on the use of participatory visual methodologies such as photovoice participatory video including cellphilming or the use of cell phones to make videos drawing and mapping in public health research These approaches are modes of inquiry that can engage participants and communities eliciting evidence about their own health and well being as well as modes of representation and modes of production in the co creation of knowledge and modes of dissemination in relation to knowledge translation and mobilization Thus the production by a group of girls or young women of a set of photos or videos from their own visual perspective can offer new evidence on how for example they see sexual violence Unlike other data such as those collected through surveys or even conventional interviews the images

they have produced not only inform the empirical evidence but also do not need to remain in a laboratory or the office of a researcher. They can through exhibitions and screenings reach various audiences: school or health personnel, parents and community members and perhaps also policy makers. This collection offers a critical overview for students, practitioners, researchers and policy makers working in or concerned with the use of participatory methodologies in public health around the globe. This book was originally published as a special issue of *Global Public Health*.

**Excited to Learn** Margery B. Ginsberg, 2015-02-27. Transforming student's motivation as the major driver in the classroom. *Excited to Learn* is grounded in Ginsberg and Wlodkowski's Motivational Framework for Culturally Responsive Teaching and includes over 50 teaching strategies for a broad range of grade levels and subject areas. These field tested and research validated tools provide a blend of theory and practice educators. The book identifies and provides easily customized teaching methods based on four conditions of the framework: Inclusion, respect and connectedness, Attitude, choice and relevance, Meaning, challenge and engagement, Competence, authenticity and effectiveness. Illustrated through narrative and outline formats, the framework is attuned to the planning needs of busy educators.

*School, Tried and True* National Science Teachers Association, 2010. A compilation of popular *Tried and True* columns originally published in *Science Scope*, this new book is filled with teachers' best classroom activities, time tested, tweaked and engaging. These ageless activities will fit easily into your middle school curriculum and serve as go-to resources when you need a tried and true lesson for tomorrow. (from publisher description)

*Vitamin N* Richard Louv, 2016-04-12. From the author of the New York Times bestseller that defined nature deficit disorder and launched the international children and nature movement, *Vitamin N for nature* is a complete prescription for connecting with the power and joy of the natural world right now. Perfect for fans of *The Anxious Generation*, 500 activities for children and adults. Dozens of inspiring and thought provoking essays. Scores of informational websites. Down to earth advice. In his landmark work *Last Child in the Woods*, Richard Louv was the first to bring widespread attention to the alienation of children from the natural world, coining the term nature deficit disorder and outlining the benefits of a strong nature connection, from boosting mental acuity and creativity to reducing obesity and depression from promoting health and wellness to simply having fun. That book rivaled Rachel Carson's *Silent Spring*. The *Cincinnati Enquirer* was an absolute must read for parents, the *Boston Globe* and an inch thick caution against raising the fully automated child, the New York Times. His follow up book *The Nature Principle* addressed the needs of adults and outlined a new nature movement and its potential to improve the lives of all people no matter where they live. McClatchy Newspapers. *Vitamin N* is a one of a kind comprehensive and practical guidebook for the whole family and the wider community including tips not only for parents eager to share nature with their kids but also for those seeking nature: smart schools, medical professionals and even careers. It is a dose of pure inspiration reminding us that looking up at the stars or taking a walk in the woods is as exhilarating as it is essential at any age. Richard Louv's new book *Our Wild Calling* is available now.
