Marine Photographer:

Hi there, thanks for the kind words happy to help. How long have you been into photography? Since 1990, I've always been interested in photography since the age of 10 and when I took up diving there was no question that I would be taking a camera in the water to bring back the amazing scenes and show people my discoveries. How did you get your start in photography? As a youngster I always had the idea I would like to draw and was complete crap! I picked up a camera one day and realized I could express my artistic self through a camera.

I've never looked back. I remember the first time someone referred to me as an artist as being very significant. What are your key interests within the business? Although I am not a professional my work has been published, and I have worked intermittently on professional projects on land and underwater. I associate with a quite a few professionals. I am always interested to see what sells in the market. You'd be surprised by what sells, opposed to what people like to hang on their walls. Pricing yourself in the market is important. Many pros complain people give their images away and devalue the market.

I am always interested in what companies are willing to pay for. I often consult with professionals before I sell images to magazines. Where do you do most of your work? The majority of my work is done in UK waters. I live and work in the UK so it makes sense to take advantage of all the area has to offer. I do work overseas periodically, but I prefer cooler climates. One goal I have is to dive under sea ice in the Arctic, or Antarctic. What do you enjoy most about this type of photography? Being underwater is like no other environment, there's no distraction with mobile phones, and people talking.

I like the challenge of being able to dive in harsh environments and show people the beauty, especially in the UK, as many feel it's often dark and gloomy and there's no colour. What is the most important thing to remember to get a good image? The single most important element in getting a good underwater picture is to get close to your subject, generally a maximum of three feet for most subjects, sometimes inches away. It depends on the size of the subject you are shooting. Obviously a 30 foot basking shark is different than a one inch shrimp.

The other thing is all about understanding light, whether you are using artificial light, or natural light, or balancing the two. The next thing to consider is the background and whether the subject is accessible or not. We try very hard as underwater photographers to not damage the environment for the sake of a picture. What is your favorite photograph of your own and why? I don't have one particular favourite. This changes all the time as the obsession to keep creating new material. I like the close up pictures of Lemon sharks I have done in black and white. There are so many others, hard to say really.

So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Photography Research Paper Books

What is a Photography Research Paper PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Photography Research Paper PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Photography Research Paper PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Photography Research Paper PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Photography Research Paper PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such

as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
