Photoquai 2015 Collectif:

Picturing the Family Silke Arnold-de Simine, Joanne Leal, 2020-08-04 Whether pasted into an album framed or shared on social media the family photograph simultaneously offers a private and public insight into the identity and past of its subject Long considered a model for understanding individual identity the idea of the family has increasingly formed the basis for exploring collective pasts and cultural memory *Picturing the Family* investigates how visual representations of the family reveal both personal and shared histories evaluating the testimonial and social value of photography and film Combining academic and creative practice based approaches this collection of essays introduces a dialogue between scholars and artists working at the intersection between family memory and visual media Many of the authors are both researchers and practitioners whose chapters engage with their own work and that of others informed by critical frameworks From the act of revisiting old personal photographs to the sale of family albums through internet auction the twelve chapters each present a different collection of photographs or artwork as case studies for understanding how these visual representations of the family perform memory and identity Building on extensive research into family photographs and memory the book considers the implications of new cultural forms for how the family is perceived and how we relate to the past While focusing on the forms of visual representation above all photographs the authors also reflect on the contextualization and remediation of photography in albums films museums and online

EXISTING IN COSTUME Chan-Hyo Bae, Kim Hong-hee, Bill Kounwenhoven, 2018-11-15 The book covers five photography series which Chan Hyo Bae has worked on so far Self Portrait Fairy Tales Punishment Witch Hunting and the new series Jumping into the Oil Paintings Each series have been divided into individual categories but the book's editing shows that all series are above the same photographic context As the artist had been fiercely living as a stranger in the U K but was unable to be absorbed and experience alienation and anger as an Asian living in Western culture his artistic challenge to the meta discourse of Western culture became the key word of this series of work Meanwhile Jumping into the Oil Paintings is an extension of Existing in Costume but also a very different attempt In terms of the formality of the work Existing in Costume is a process that visualizes the artist's feelings of prejudice and alienation through elaborating exquisite plan and production while Jumping into the Oil Paintings do not simply damage but deconstruct the subject's essence by gilding on the printed photography or by copying the paintings images and transfer it to animal skins His new series could be seen as a way more aggressive challenge to the system of Western thought and through this we might carefully gauge the direction of his future works This photography book which contains 52 works from five series include articles of Kim Hong hee the art critic and the previous director of Seoul Museum of Art and also Bill Kuenhoven's article who has executive capacity in international photography scene since he had been worked as an editor of several major photography magazines for the past 20 years including Hotshoe International Thus those articles will support an in depth understanding of the artist's works has a meaning as a publication aiming at overseas photography experts and
