Diego *Agent of Change: Addressing the Public Education State of Emergency* Howard D. Zmudy, 2025-08-26 The curriculum approach presented is called *Students Empowering Themselves (SET)*. *Going for the Magic SET* is based on the quality of sameness within each human being: the desire to be happy. A consistent response we received for 50 years while working with youth and adults of all ages and cultures from around the world. We call it the *Common Thread Denominator Experience*. It is more than a simple intervention applicable in all learning environments; it is an evolution that unfolds as all participants come together as an inclusive community working toward a common goal. It is driven by empowerment and sustained by the joy of self-discovery, inspiring the desire to uncover more about oneself. Schonert-Reichl (2014) stated: *Educating the heart* refers to the importance of not only focusing on developing the cognitive aspects of our minds but also all the qualities that make us human: our hearts, and ultimately give us meaning in our lives. Research has demonstrated the positive impacts of developing our hearts: the way we feel and relate to one another. In fact, heart and mind learning are interconnected. *SET* is eclectic, including the application of evidence-based neuroscience to instructional strategies that are brain research-based and trauma-informed, securing a pathway to nurturing and building resilience. It offers a positive emotional learning environment that reduces stress and promotes building a foundation for a love to learn attitude where learners become leaders.
