Church Laws and Ecumenism Norman Doe,2020-09-27 Written by experts from within their communities this book compares the legal regimes of Christian churches as systems of religious law The ecumenical movement with its historical theological focus has failed to date to address the role of church law in shaping relations between churches and fostering greater mutual understanding between them In turn theologians and jurists from the different traditions have not hitherto worked together on a fully ecumenical appreciation of the potential value of church laws to help and sometimes to hinder the achievement of greater Christian unity This book seeks to correct this ecumenical church law deficit It takes account of the recent formulation by an ecumenical panel of a Statement of Principles of Christian Law which has been welcomed by Pope Francis and the Ecumenical Patriarch of Constantinople leader of the Orthodox Church worldwide as recognizing the importance of canon law for ecumenical dialogue This book therefore not only provides the fruits of an understanding of church laws within ten Christian traditions but also critically evaluates the Statement against the laws of these individual ecclesial communities The book will be an essential resource for scholars of law and religion theology and sociology It will also be of interest to those working in religious institutions and policy makers

actually occurring within Christian churches towards safeguarding using a case study of the Anglican Diocese of Tasmania Australia Through the use of interviews and document analysis the book provides an insight into the attitudes and practices of ordinary clergypersons towards child sexual abuse and safeguarding to understand how safe ministry is understood and executed in everyday life in the Church and to what extent it aligns with policy requirements and criminological best practice It adopts organisational culture theory the perspective used to explain how clerical culture enabled and concealed child sexual abuse in the Church to the present in order to understand how clerical attitudes cognition and practice conduct today is being shaped by some of the same negative cultures Underlying these cultures is misunderstandings of abuse causation which are shown here to negatively shape clerical practice and at times compromise policy and procedural requirements Providing an insight into the lived reality of safeguarding within churches and highlighting the ongoing complexities of safe ministry the book is a useful companion to students academics and practitioners of child protection and organisational studies alongside clergy church leaders and those training for the ministry
