Long recognized as the standard text and reference in its field it is organized into four sections: Foundations, Ecological Assessment, Assessment of Cognitive Abilities, and Assessment of Specific Abilities. Key features of this new edition include: New Material: A thorough updating includes new material on environmental and home and family assessment plus new coverage of recently revised tests including the Stanford Binet V and the Kaufman Assessment Battery for Children 2e. Balanced Coverage: Sound theoretical coverage precedes and supports the book's main focus on assessing the abilities, skills, behavior, and characteristics of young children. Expertise: Each chapter is written by a nationally recognized scholar and represents state of the art coverage of its topic. Comprehensive and Flexible: The broad range and organization of topics covered makes the book suitable for both new and experienced examiners and for use as a text in graduate level courses on preschool assessment.

Essentials of Processing Assessment Milton J. Dehn, 2006-01-24 Provides step by step guidelines for organizing a processing assessment, selecting appropriate instruments, interpreting results, and identifying processing deficits. Understanding how the brain processes information is vital to identifying a child's strengths and weaknesses with regard to learning and formulating appropriate interventions for specific learning difficulties. *Essentials of Processing Assessment* the latest addition to the popular *Essentials of Psychological Assessment* series provides critical information about this important aspect of cognitive functioning. This handy resource provides students and practitioners with the tools they need to accurately and efficiently assess an individual's ability to process information. As part of the *Essentials of Psychological Assessment* series, this book provides information mental health professionals need to practice knowledgeably, efficiently, and ethically in today's behavioral healthcare environment. Each concise chapter features numerous callout boxes highlighting key concepts, bulleted points, and extensive illustrative material, as well as Test Yourself questions that help you gauge and reinforce your grasp of the information covered. The author first presents a model of cognitive processing and learning, accompanied by a snapshot of interventions that address various processing deficits, especially those linked to problems with reading, writing, and arithmetic. Next, he outlines a cross-battery approach to selecting appropriate assessment measures and reviews key instruments such as the WISC-IV, KABC-II, Stanford-Binet 5, WJ-III, CAS, NEPSY, and others. Finally, he provides indispensable guidelines on how to organize a processing assessment and how to interpret results. The book includes a detailed chart categorizing the scales and subtests used in processing assessments and a valuable worksheet for analyzing

results Closely following IDEA Reauthorization requirements Essentials of Processing Assessment offers the best one stop source of information for students and practitioners to identify processing strengths and weaknesses and plan appropriate interventions Other titles in the Essentials of Psychological Assessment series Essentials of Stanford Binet SB5 Assessment Essentials of WISC IV Assessment Essentials of WIAT II and KTEA II Assessment Essentials of Assessment Report Writing Essentials of WJ III Cognitive Abilities Assessment Essentials of WJ III Achievement Assessment Essentials of WPPSI III Assessment Essentials of Cross Battery Assessment Essentials of KABC II Assessment Essentials of NEPSY Assessment Essentials of CAS Assessment Essentials of WMS III Assessment
