*Dialectical Journals* help one to read critically and encourages the habit of analyzing literature. It is a place to record and explore ideas using writing as a tool for learning. Answer the following question and then choose quotes throughout the passage that will help you support your claim.

Consider Odysseus' character and status as a Greek hero as it is revealed throughout his hero's journey; what heroic qualities of Odysseus best reflect his society's values?

**Claim/Thesis (Answer):** Homer displays heroes through commonly loved traits shared by Romans such as bravery, loyalty, and cleverness

Quote	Context/Interpretation/Significance
1. "Odysseus, who had endured so much, / so long, was overjoyed, to hear from her / that he was in his own dear native land. / His words took wings and flew, but he did not tell her the truth; he bit his story back. His mind was always full of clever schemes." (13:250-55)	<p><b>A context:</b> Odysseus has just returned to Ithaca after being away for 20 years and encounters a disguised Athena.</p> <p><b>B interpretation/analysis:</b> Odysseus is overjoyed to be home after enduring so much in his travels back from the Trojan War. His wily mind is always quick to deceive, so he doesn't disclose who he is or what all he has done.</p> <p><b>C significance:</b> Even in this moment of great joy, when his ten year trek is complete, Odysseus is self-composed and his deceptive response is still part of his elaborate scheme. His composure and cleverness, even in his elation, demonstrate the degree of the Greeks' value of a clever mind.</p>
2. "There the dog Argos lay in the dung, all covered with dog ticks. Now, as he perceived that Odysseus had come close to him, he wagged his tail, and laid both his ears back; only he now no longer had the strength to move any closer to his master, who, watching him from a distance, without Eumaios noticing, secretly wiped a tear away" (17:300-305)	<p><b>A context:</b> Odysseus returns home and his old dog remembers his old owner coming home finally from battle.</p> <p><b>B interpretation/analysis:</b></p> <p>The dog to me shows Odysseus' legacy and proves that not all hope is lost for him. Odysseus was tired and had lost all hope, shown by the dung and ticks on his old dog. The dog</p>

*L□S, the Times Literary Supplement*, 1970 *Identification of Outliers* D. Hawkins, 2013-04-17 The problem of outliers is one of the oldest in statistics and during the last century and a half interest in it has waxed and waned several times Currently it is once again an active research area after some years of relative neglect and recent work has solved a number of old problems in outlier theory and identified new ones The major results are however scattered amongst many journal articles and for some time there has been a clear need to bring them together in one place That was the original intention of this monograph but during execution it became clear that the existing theory of outliers was deficient in several areas and so the monograph also contains a number of new results and conjectures In view of the enormous volume of literature on the outlier problem and its cousins no attempt has been made to make the coverage exhaustive The material is concerned almost entirely with the use of outlier tests that are known or may reasonably be expected to be optimal in some way Such topics as robust estimation are largely ignored being covered more adequately in other sources The numerous ad hoc statistics proposed in the early work on the grounds of intuitive appeal or computational simplicity also are not discussed in any detail
