

PROGRESS REPORT TEMPLATE

Project Title:

Contact Detail:

Date: DD Month YYYY

Period Covered: DD Month YYYY- DD Month YYYY

Author(s): Project Manager Name (Company)
.....

Contributions: Contributor A (Company)
Contributor B (Company)
.....

A. Activities Performed during the period

Please provide a summary of the activities performed during the reporting period. Although you are free to adopt your own structure, please try to follow these guidelines:

- Be concise
- Avoid a report that is too structured (like reporting by each WP)
- Do not keep reporting past issues by adding new things to old ones which are not relevant anymore for the time span covered in the report
- Consider the Monthly Progress Report as a tool not only to keep ESA informed, but the whole project team
- Be systematic; provide the Monthly Progress Report on time, and not only during the first months. A good Monthly Progress Report is a key tool to circulate information in your project team, and keep active the responsiveness of your team

B. Problems Encountered and Corrective Actions

Please indicate here any problem areas that you encountered and any corrective measures that will be taken. Specifically, any risks already identified and not completely resolved shall be addressed together with the mitigation strategy.

C. Planned Activities for Next Period

Please provide a short summary of the activities to be undertaken for the next period.

D. Updated Milestone Completion Forecast

Please provide a list of the contractually agreed milestone dates and the forecasted dates.

Writing A Project Progress Report:

The IEEE Guide to Writing in the Engineering and Technical Fields David Kmiec, Bernadette Longo, 2017-08-30
Helps both engineers and students improve their writing skills by learning to analyze target audience tone and purpose in order to effectively write technical documents This book introduces students and practicing engineers to all the components of writing in the workplace It teaches readers how considerations of audience and purpose govern the structure of their documents within particular work settings The IEEE Guide to Writing in the Engineering and Technical Fields is broken up into two sections Writing in Engineering Organizations and What Can You Do With Writing The first section helps readers approach their writing in a logical and persuasive way as well as analyze their purpose for writing The second section demonstrates how to distinguish rhetorical situations and the generic forms to inform train persuade and collaborate The emergence of the global workplace has brought with it an increasingly important role for effective technical communication Engineers more often need to work in cross functional teams with people in different disciplines in different countries and in different parts of the world Engineers must know how to communicate in a rapidly evolving global environment as both practitioners of global English and developers of technical documents Effective communication is critical in these settings The IEEE Guide to Writing in the Engineering and Technical Fields Addresses the increasing demand for technical writing courses geared toward engineers Allows readers to perfect their writing skills in order to present knowledge and ideas to clients government and general public Covers topics most important to the working engineer and includes sample documents Includes a companion website that offers engineering documents based on real projects The IEEE Guide to Engineering Communication is a handbook developed specifically for engineers and engineering students Using an argumentation framework the handbook presents information about forms of engineering communication in a clear and accessible format This book introduces both forms that are characteristic of the engineering workplace and principles of logic and rhetoric that underlie these forms As a result students and practicing engineers can improve their writing in any situation they encounter because they can use these principles to analyze audience purpose tone and form

Writing Reports to Get Results Ron S. Blicq, Lisa A.
