Our Literary Test generators offer state of the art methods for test creation. Save yourself hours of reading and organization when it comes to setting up test for your favorite works of literature. We offer a great variety of on demand testing material for the great classic to modern works of literature, as well as grammar and social studies.

With a few clicks of the computer mouse you can generate a kaleidoscope of tests that can be used over and over again in all of your classes – never duplicating the same format and outwitting students who might be collecting your testing material for distribution among their friends.

Here are some of the program features:

- Quickly create a variety of **short answer or fill-in** tests from our built-in database of questions and answers.
- Create tests **sequentially** – the order in which they are set up in the database (following the sequence of the literary work or historical events).
- Create tests **randomly** – order is selected by the program from the entire database of questions and answers (from any part in the literary work or historical events).
- Create tests **within a range** – order is selected sequentially or randomly (your choice) within a range of chapters, scenes, stanzas, etc. Enter a range of numbers or choose from a hand drop-down list of sections available.
- Create tests **selectively** – from the database of questions and answers you select what you want to use.
- All tests and sheets you create with the program are accompanied by **Teacher Answer Keys**.
- Questions can be easily converted from short answer or fill-in to multiple choice by simply adding your own possible choices of answers for each question created.
- Import your own questions to enrich the on-board database we offer.
- Create your own questions and lists to import into the program using our on-board Question Editor.
- Create more than one test on screen at a time.
- Edit the test (if you choose) on screen before printing.
- Copy and Paste tests into your favorite word processor for printing or print directly from the program screen.
- Use your lists of vocabulary words and definitions to create scrambled words vocabulary sheets for homework, in-class practice, or testing.
