Shuman, 2014-10-14 Micah Dunn investigates a murderous plot to discredit an archaeologist In steamy downtown New Orleans Gregory Thorpe is presenting an exhibition that could rewrite the history of the ancient Mayans But when fake artifacts begin appearing alongside the authentic ones Thorpe's reputation is thrown into jeopardy To trace the fraud Thorpe hires Micah Dunn a world weary private detective whose tour in Vietnam cost him the use of one of his arms and provided fodder for decades of nightmares PI work is boring repetitive and safe but clearing Thorpe's name will expose Dunn to the kind of danger he thought he left behind in the jungle Dunn has experience working with archaeology and he knows the field is cutthroat Thorpe is not well liked on the Tulane campus and any of his colleagues or grad students could be responsible for the fraud When one of the suspects turns up dead Dunn realizes that someone in New Orleans will kill to keep the Mayan past buried *Maya Bonesetters* Servando Z. Substance of the Ancient Maya Andrew K. Scherer, Thomas G. Garrison, 2024-12-01 Substance of the Ancient Maya Kingdoms and Communities Objects and Beings collects twelve essays by top scholars that highlight what is new in research pertaining to the ancient Maya Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology epigraphy and art history The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya from hand held objects to entire kingdoms This dichotomy reflects the breadth of questions central to current research on the Maya It also illustrates how certain themes such as the relationship between the living and the realm of the supernatural are fundamental to both thinking by and about the Maya at all scales A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book illustrating that archaeologists epigraphers geographers and art historians can equally contribute to the substance of kingdoms and

communities as they can to objects and beings Collectively these contributions show how the objects and beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past
