Responsibilities

USC's Department of Risk Management Services (RMS) is responsible for:

- developing and maintaining effective accident prevention programs;
- providing the University community with required training;
- assisting the University in complying with health, safety and environmental regulations; and
- enhancing departmental services.

Occupational & Research Health & Safety

Within RMS, the Occupational & Research Health & Safety (ORHS) department collaborates with researchers across campus to ensure that laboratory research is conducted safely and in accordance with applicable regulations. RMS's programs related to research and laboratory work comprise:

- Chemical Safety
- Occupational Hygiene
- Biosafety
- Radiation Safety
- Diving Safety
- Environmental Services

The Chemical Safety Manual

Chemical Safety at USC is of foremost importance and this manual is provided as a starting point for the development of safe and best management practices in USC laboratories where hazardous chemicals are used. The material contained within the manual has come from a variety of sources and it is carried to the best of knowledge of the RMS. However, there is no guarantee or warranty that it is without errors or omissions.

In addition to this manual a series of supporting documents are currently being developed by RMS. As they become available, the documents are being posted on the [Chemical Safety Resources](#) web-page.

1.2 Duties and Responsibilities

The [Work Safe USC Occupational Health and Safety Regulation](#) (Section 1.2) and the [USC Safety Policy 1](#) clearly define the roles and responsibilities of the employer, employee and students at USC.

The university, acting through administrative heads of unit, is responsible for providing a safe, healthy and secure working environment for all those involved in the university's activities.

Supervisors, in their area of responsibility, are accountable for the following: identifying all hazards; ensuring that there are safe work procedures and appropriate emergency procedures; ensuring that all workers and students know and follow these procedures; and correcting unsafe conditions and practices. A supervisor is anyone who has been delegated responsibility for others working or studying at USC.
