**How to Write Better Medical Papers**  
Michael Hanna, 2019-03-20 This book guides medical researchers through all stages of transforming their scientific data and ideas into a published paper Many researchers in medicine including the life sciences and health sciences struggle to get their research written and published Manuscripts are typically rejected and or sent back for revisions several times before ever being published One reason for this is that researchers have not received much instruction in the specific subjects and skills needed to write and publish scientific medical papers research methodology ethics statistics data visualization writing revising and the practicalities of publishing Instead of wasting the reader s time discussing trivialities of punctuation spelling etc this book tackles all the major scientific issues that routinely lead to manuscripts getting rejected from the journals The section Preparing covers the range of methodological ethical and practical aspects that researchers need to address before starting to write their paper The section Analyzing reviews commonplace problems in the statistical analysis and presentation and how to resolve those problems The section Drafting describes what to write in all the various parts of a paper the Introduction Methods Results Discussion Abstract etc The section Revising explains and illustrates how to improve the writing style of any manuscript The section Publishing discusses how to navigate the peer review process and all other practical aspects of the publishing phase This book draws on the author s decade of experience as an independent medical writer and research consultant but it is not written merely as the personal opinion of yet another expert The entire book is grounded in the existing scientific and scholarly literature with extensive references and a lengthy annotated bibliography so readers can quickly obtain more information on any aspect they want Thus this book provides a more evidence based scholarly account of how medical scientific papers should be written in order to improve medical communication and accelerate scientific progress After reading this entire book cover to cover medical researchers will know how to write better quality medical papers and they will be able to publish their work in better journals with less time and struggle This book is essential reading for anyone conducting research in clinical medicine life sciences or health sciences

[How to Write a Research Paper: A Guide Book for Neophyte Students](#) Dr. Rashmee Yadav, 2023-02-14 ABOUT THE BOOK The book How to write a Research Paper Guide book for neophyte students composed by three youngsters Dr Rashmee Yadav Dr Brij Vikash

Singh and Dr Mithesh Verma is a fantastic effort in this direction They have covered almost all the areas of research paper writing process and how to write a research paper etc The book is based on the research paper writing process The author s main focused on this book How to write a Research Paper Guide Book for the neophyte students This book is helpful to students writing research paper in proper way because plenty of research papers are written every year But in many of them research methodology aspect is not given a considerable attention and because of which the research papers end up in just being endless words containing stories leading to less or no sense It should be noted that the quality in research articles comes from the extensive planning and in depth research before starting writing them actually This is true even for management research papers writing A research paper analyzes a perspective or argues a point Regardless of the type of research paper the researcher is writing the researcher should present his own thinking backed up by others ideas and information Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences we have developed a detailed approach to writing research papers and the approach is presented here Instead of focusing on one research paper we have focused on the process of research writing through a series of shorter writing exercises Students begin by having to carefully think about a topic of research and by developing a working idea They then write a series of shorter essays that explore that topic All along the way students are continuing to research and revise their working proposal so that by the end of the term their thinking about their original topic of research has evolved This b
