Users Like You and Me Martin D. Mileros, 2025-02-28 With over 5 billion social media users users worldwide digital platforms such as YouTube and Facebook have become an integral part of people's daily lives Many of these platforms offer free services such as entertainment and social interaction but behind these services lies a complex economic non monetary exchange A specific user group referred to in this dissertation as zero price users trades personal resources such as time attention and data instead of money to use the free service At the same time another more active user group plays a significant role content creators Content creators and especially influencers have assumed a central role in supplying platforms with original and engaging content What unites these two types of users is that they both participate in a distributed value creation process based on the monetization of personal assets which positions them as economic actors in an emerging user driven data economy Many of the resources that users provide or exchange with other users can be utilized by platforms as economic assets However these resources are not perceived in the same way as traditional economic transactions This lack of insight can lead to a range of future consequences and costs that may negatively impact users and diminish their well being The aim of this dissertation is therefore to explore social media users as active economic actors in the user driven data economy from a human centric perspective The research is based on a combination of qualitative and quantitative methods Surveys are used to study zero price users and their engagement with free services For content creators in depth interviews are conducted as this group represents a significantly smaller population The study stands out by adopting a human centric perspective In other words it contributes knowledge focused on enhancing user well being rather than prioritizing growth and innovation as companies and organizations typically do The results show that platform strategies such as infinite scrolling and targeted advertising can subtly influence user behavior and lead to various non monetary costs These may manifest as procrastination reduced self control and stress For content creators the pressure from algorithms and sponsors often shifts their focus from intrinsic motivation to external performance goals which can hinder their creativity and stability over time Additionally they frequently face financial uncertainty and the need to continuously push their boundaries to produce original content This growing pressure may lead influencers to take significant risks or expose their private lives and families The study's observations highlight how the user driven economy not only affects individuals but also reshape markets culture and behaviors This dissertation deepens the understanding of the user driven

data economy and its implications for users by linking them to autonomy core human values and well being It also emphasizes the importance of increased transparency and ethical accountability from companies as well as the need for users to reflect on their values digital behaviors and the consequences of their actions As role models and cultural influencers influencers specifically play a key role in shaping future norms values and societal trends While this research provides a foundation for understanding this phenomenon further studies are needed to identify additional non monetary costs for users and develop tools and strategies that can enhance their ability to make more informed decisions regarding their current and future challenges Med ver fem miljarder anv ndare av sociala medier anv ndare v rlden ver s har digitala plattformar plattformar s som YouTube och Facebook blivit en naturlig del av m nniskors vardag M nga plattformar av detta slag erbjuder exempelvis gratis tj nster s som underh llning och social interaktion men bakom dessa tj nster d ljer sig ett komplext ekonomiskt ickemonet rt utbyte Till exempel byter en specifik anv ndargrupp som i denna avhandling ben mns som nollprisanv ndare personliga resurser som tid uppm rksamhet och data i st llet f r pengar mot anv ndande av plattformar Samtidigt spelar ocks en annan mer aktiv anv ndargrupp en viktig roll n mligen inneh llsskapare Inneh llsskapare och fr mst s kallade influencers har f tt en central roll i att f rse plattformarna med originellt och engagerande inneh ll Det som f renar dessa tv typer av anv ndare r att de b da deltar i en distribuerad v rdeskapandeprocess som baserar sig p monetariseringen av personliga tillg ngar vilket i sin tur positionerar dem som ekonomiska akt rer i en framv xande anv ndardriven dataekonomi M nga av de resurser som anv ndarna tillhandah ller eller utbyter mellan andra anv ndare kan nyttjas som ekonomiska tillg ngar av plattformarna vilket inneb r att dessa resurser inte uppfattas p samma s tt som traditionella ekonomiska transaktioner Denna bristande insyn kan leda till en rad framtida konsekvenser och kostnader som negativt p verkar anv ndarna och deras vergripande v lbefinnande Syftet med denna avhandling r d rmed att belysa och f rdjupa sig i den anv ndardrivna dataekonomin samt att mer specifikt unders ka konsekvenserna f r de tv centrala huvudanv ndarna nollprisanv ndare och inneh llsskapare Forskningen baserar sig p en kombination av kvalitativa och kvantitativa metoder d r enk ter anv nds f r att unders ka nollprisanv ndare och deras anv ndning av gratis tj nster F r inneh llsskapare s anv nds ist llet djupintervjuer d dessa respondenter r f rre till antalet Studien utm rker sig genom att anta ett m nniskocentriskt perspektiv Med andra ord s bidrar studien med kunskap som kan leda till kat v lbefinnande f r den enskilde snarare n f retagsrelaterade aspekter som kad tillv xt och innovation Resultaten visar att plattformsstrategier s som obegr nsad scrolling och riktad reklam subtilt kan p verka anv ndares beteenden och leda till en rad icke monet ra kostnader exempelvis prokrastinering nedsatt sj lvkontroll och stress F r inneh llsskapare medf r trycket fr n algoritmer och sponsorer att deras fokus ofta f rflyttas fr n deras inre motivation till externa prestationsm l vilket visar sig h mma kreativitet och stabilitet ver tid Dessutom st r de ofta inf r en ekonomisk os kerhet och behovet av att st ndigt t nja p sina gr nser f r att producera originellt inneh ll Denna kade press kan leda till att influencers tar stora risker eller exponerar sina privatliv och familjer Studiens observationer

belyser hur användardrivna ekonomier inte bara påverkar individer utan även effekten på marknader, kultur och beteende. Denna avhandling fördjupar förstelsen för den användardrivna dataekonomin och dess konsekvenser för användare genom att koppla dem till autonomi, människors känslor och välbefinnande. Den betonar också vikten av hög transparens och etiskt ansvar för plattformsfretagens sida samt vikten av att användare reflekterar över sina värderingar, digitala beteenden och konsekvenserna av sina handlingar. Som förbilder och kulturella påverkare spelar specifikt influencers en nyckelroll i att forma framtida normer, värderingar och samhällstrender. Guide to U.S. Health and Health Care Policy Thomas R. Oliver, 2014-09-03 Guide to U.S. Health and Health Care Policy provides the analytical connections showing students how issues and actions are translated into public policies and institutions for resolving or managing health care issues and crises such as the recent attempt to reform the national health care system. The Guide highlights the decision-making cycle that requires the cooperation of government, business and an informed citizenry in order to achieve a comprehensive approach to advancing the nation's health care policies. Through 30 topical, operational and relational essays, the book addresses the development of the U.S. health care system and policies, the federal agencies and public and private organizations that frame and administer those policies, and the challenges of balancing the nation's health care needs with the rising costs of medical research, cost-effective treatment and adequate health insurance.

Key Features: The 30 topical essays investigate the fundamental political, social, economic and procedural initiatives that drive health and health care policy decisions affecting Americans at the local, regional and national levels. Essential themes traced throughout the chapters include providing access to health care, national and international intervention, nutrition and health, human and financial resource allocation, freedom of religion versus public policy discrimination and health care policy, universal health care coverage, private health care.

versus publicly funded health care and the immediate and long term costs associated with disease prevention treatment and health maintenance A Glossary of Key Health Care Policy Terms and Events a selected Master Bibliography and a thorough Index are included This must have reference for political science and public policy students who seek to understand the issues affecting health care policy in the U S is suitable for academic public high school government and professional libraries

Drawing on insights from evolutionary theory, Sven Steinmo challenges the common equilibrium view of politics and economics and argues that modern political economies are best understood as complex adaptive systems The book examines the political, social and economic history of three different nations: Sweden, Japan and the United States and explains how and why these countries have evolved along such different trajectories over the past century Bringing together social and economic history, institutionalism and evolutionary theory, Steinmo thus provides a comprehensive explanation for differing responses to globalization as well as a new way of analyzing institutional and social change
