

Dissection of a Yellow Perch

General Notes about Dissections:

- Take extreme care when using dissecting instruments, particularly scalpels. Make cuts away from your body
- Cut lightly so you don't dissect what you want to see
- Keep sharp dissection tools pointing down when held in your hand
- Your fish has been preserved in a chemical solution. Wear plastic gloves and goggles at all times.
- Clean up the work area and wash your hand thoroughly when finished

Respect for living things and the environment is considered essential for meaningful work in science and technology.
