

Self-Introduction

My name is Zhao Yan. I am studying at Nanjing Foreign Language School and now busy preparing for college study. Many years of hard working and strict training have made me a qualified middle school student with high qualities.

I have a good relationship with my classmates and teachers as I am generally sociable in personality. I am thoughtful and helpful in school. As for my study, I pay special attention to the development of my thinking manners so that I become quick in thinking and broad in knowledge. Seeking reality and progress, I have achieved excellence in my study. I particularly love such subjects as math, physics, biology and English. I am strong in logical thinking and oral expressing. I am creative and unique in views on certain matters. I have won many awards in the above subjects (see the copies of these certificates).

Morally I may say I am also excellent, because I am strict with myself, following the school's rules and regulations, taking active part in various activities, displaying great interest in our country's important events and world affairs. I love our motherland and our people and I am trying to get the party membership. All this has led me to win the "Xiang Yu Scholarship".

In addition, I have developed many hobbies in my life. For example, I love reading, computer and Internet, music and sports. I have been a champion several times in our school's sports meet.

In short, as a student studying at Nanjing Foreign Language School, I am determined to make my own contribution to our country's diplomatic affairs.

study Patricia Suzanne Sullivan provides a critical history of experimental writing theory and its aesthetic foundations and demonstrates their application to current multimodal writing Sullivan unpacks the work of major scholars in composition and rhetoric and their theories on aesthetics particularly avant gardism She also relates the dialectics that shape these aesthetics and sheds new light on both the positive and negative aspects of experimental writing and its attempts to redefine the writing disciplines Additionally she shows how current debates over the value of multimedia texts echo earlier arguments that pitted experimental writing against traditional models Sullivan further articulates the ways that multimedia is and isn't changing composition pedagogies and provides insights into resolving these tensions
