- 2 ► Name the two groups of stakeholders in the photograph.

Customers and employees are the two groups of stakeholders in the photograph.

- 3 ► The goods sold in the store above are bought from suppliers. What are the possible needs of suppliers?

Businesses that provide raw materials, parts, commercial services and utilities to other businesses are called suppliers. In this case, suppliers provide the store with the stock that is sold on to consumers. Relations between businesses and their suppliers must be good because they rely on each other. Businesses want good quality resources at reasonable prices. In return suppliers will require prompt payment and regular orders. If suppliers do not receive prompt payment from their customers, this may cause them problems. For example, they may not have enough money to pay their own bills.
