Smithers believes that his workers at the factory could be more productive. He thinks that a special juice will increase the productivity of

workers. He selects two groups of 50 workers each and assigns each group the same task (in this case, they're supposed to staple a set of papers). Group A is given a special juice to drink while they work. Group B is not given the special juice. After an hour, Smithers counts how many stacks of paper each group has made. Group A made 6,587 stacks, Group B made 1,113 stacks.

Identify the:

1. Hypothesis

If his workers drink a special juice, then their productivity will increase.

2. Control Group

No special juice (Group B)

3. Experimental Group

Special juice (Group A)

4. Independent Variable

Special juice

5. Dependent Variable

Productivity

6. What should Smithers conclusion be?

It does ~~not~~ increase productivity

Homer suddenly notices that the walls of his shower are covered in a strange green slime. His friend Barney tells him that coconut juice will get rid of the green slime. Homer

decides to test this out by spraying half of the shower with coconut juice every day. He sprays the other half of the shower with water. After 3 days of "treatment" there is no change in the amount of green slime on either side of the shower.

7. What was Homer's initial observation?

Slime on his Shower walls

Identify the:

8. Hypothesis

If he sprays coconut juice on the walls, the green slime will go away

9. Control Group

Water on walls

10. Independent Variable

Presence of coconut juice

11. Dependent Variable

Amount of green slime on walls

12. What should Homer's conclusion be?

The addition of coconut juice does not help get rid of green slime. The hypothesis was wrong! incorrect!

instrumentation controls and electrical systems overview for - Aug 10 2022

web this course provides an introduction and overview of electrical systems instrumentation process control and control safety systems typically encountered in oil and gas facilities the focus is to understand terminology concepts typical equipment configurations and common pitfalls in order to improve communication with electrical and i c

what is instrumentation and control electrical volt - Mar 05 2022

web the instrumentation of a control system is the ability of the human being to be capable to measure and control processes and the environment thus the major role of instrumentation is measurement of physical parameters like pressure temperature display of measured physical parameters in an interpretable form

industrial instrumentation and control an introduction to the - Jul 09 2022

web nov 6 2019 instrumentation and control are interdisciplinary fields they require knowledge of chemistry mechanics electricity and magnetism electronics microcontrollers and microprocessors software languages process control and even more such as the principles of pneumatics and hydraulics and communications

14 14 signals and systems control systems engineering - May 07 2022

web aug 24 2021 this is a preview of signals and systems which sometimes is referred to as control systems especially

electrical engineers the topics associated with this topic are important to all engineers

[project controls for electrical instrumentation and control systems](#) - Apr 18 2023

web jul 1 2019 connected systems such as electrical instrumentation and control systems eics however do not possess geometrical properties and as a result have been overlooked receiving limited attention this paper utilizes a digital system information model sim to enable a project control system based on human machine interactions

instrumentation and control engineering wikipedia - Aug 22 2023

web instrumentation and control engineering ice is a branch of engineering that studies the measurement and control of process variables and the design and implementation of systems that incorporate them process variables include pressure temperature humidity flow ph force and speed ice combines two branches of engineering

electrical instrumentation and controls eic becht - Mar 17 2023

web becht s iea division provides expert solutions for updating or improving electrical instrumentation and controls eic systems speak with an expert today

instrumentation wikipedia - Dec 14 2022

web instrumentation is a collective term for measuring instruments used for indicating measuring and recording physical quantities it is also a field of study about the art and science about making measurement instruments involving the related areas of metrology automation and control theory

26 09 00 instrumentation and control for electrical systems arcat - Feb 04 2022

web sep 23 2013 browse companies that make instrumentation and control for electrical systems and view and download their free cad drawing revit bim files specifications and other content relating to instrumentation and control for electrical systems as well as other product information formatted for the architectural community

instrumentation and control tutorial 3 signal - Sep 11 2022

web instrumentation and automatic control systems it is provided mainly in support of the ec module d227 control system engineering this tutorial is mainly descriptive on completion of this tutorial you should be able to do the following explain a basic measurement system describe the various types of signals and their conversion

journal of control automation and electrical systems home - Feb 16 2023

web oct 14 2023 journal of control automation and electrical systems publishes original research papers as well as tutorials on industrial automation intelligent systems robotics instrumentation power electronics power systems and control theory and applications

project controls for electrical instrumentation and control systems - Nov 13 2022

web mar 10 2019 request pdf project controls for electrical instrumentation and control systems enabling role of digital

system information modelling accurate assessment of a project s progress enables

instrumentation and control systems sciencedirect - May 19 2023

web abstract this chapter discusses the basic elements for analogue control systems of on off control proportional control derivative control integral control pid control and tuning also discussed is an introduction to digital control systems

basics of instrumentation in electrical engineering maker pro - Jun 20 2023

web dec 18 2019 what is instrumentation in electrical engineering electrical and instrumentation engineering eie is a subfield of electrical engineering that deals with the measurement of process variables within industrial facilities and the management of equipment for automated control

plant electrical systems instrumentation and control t voestalpine - Jun 08 2022

web instrumentation and control technologies fault free systems depend on the correct selection and project planning of measurement and control components professional installation parameterization and commissioning are

what is instrumentation and control inst tools - Apr 06 2022

web an instrument is a device that measures or manipulates process physical variables such as flow temperature level or pressure etc instruments include many varied contrivances which can be as simple as valves and transmitters and as complex as analyzers instruments often comprise control systems of varied processes

instrumentation and control systems university of - Sep 23 2023

web instrumentation and computer control systems sensors and signal conditioning steve collins michaelmas term 2012 introduction an instrumentation system obtains data about a physical system either for the purpose of collecting information about that physical system or for the feedback control of the physical system

textbook for industrial automation control - Jan 15 2023

web explore the fundamentals of electrical control system voltages using dc and ac circuits involving resistors capacitors and inductors for analog discrete signal high power and motor control systems

electronic measurement and instrumentation circuits and systems - Oct 12 2022

web the author deals with all the fundamental aspects of measurement including theory of measurement systems of units standards measurement methods data acquisition sampling multiplexing and aliasing he also covers more practical aspects of measurement including transducers interference noise ad and da conversion and instrument data

instrumentation control and electrical systems abb - Jul 21 2023

web abb s integration of automation and ebop systems coupled with abb s innovative products in low medium and high voltage electrical equipment generator excitation protection and synchronizing systems cover all types of power plant designs
