Aronin,2011-02-01 In the tradition of Atul Gawande and Sherwin Nuland Marc Aronin writes luminously and unforgettably of life as he sees it as a doctor His beat is a nursing home in Miami that some would dismiss as God s waiting room Nothing in the young doctor s medical training had quite prepared him for what he was to discover there As Aronin first learned from ninety eight year old Esther and later from countless others the true scales of aging aren t one sided you can t list the problems without also tallying the hopes and promises Drawing on moving personal experiences and in depth interviews with pioneers in the field Aronin conjures a spellbinding look at what aging means today how our bodies and brains age and the very way we understand aging **Diagnosing Madness** Christina Hanganu-Bresch,Carol Berkenkotter,2019-08-01 An examination of

the evolving rhetoric of psychiatric disease *Diagnosing Madness* is a study of the linguistic negotiations at the heart of mental illness identification and patient diagnosis Through an examination of individual psychiatric case records from the late nineteenth and early twentieth centuries Cristina Hanganu Bresch and Carol Berkenkotter show how the work of psychiatry was navigated by patients families doctors the general public and the legal system The results of examining those involved and their interactions show that the psychiatrist's task became one of constant persuasion producing arguments surrounding diagnosis and asylum confinement that attempted to reconcile shifting definitions of disease and to respond to sociocultural pressures By studying patient cases the emerging literature of confinement and patient accounts viewed alongside institutional records the authors trace the evolving rhetoric of psychiatric disease its impact on the treatment of patients its implications for our contemporary understanding of mental illness and the identity of the psychiatric patient *Diagnosing Madness* helps elucidate the larger rhetorical forces that contributed to the eventual decline of the asylum and highlights the struggle for the professionalization of psychiatry
