The Novels of Bjørnstjerne Bjørnson: The fisher lass Bjørnstjerne Bjørnson, 1908

Kafka's Novels Patrick Bridgwater, 2021-11-22 Kafka's three novels to be understood as an ever more intricate portrayal of the inner life of one central character Henry James's centre of consciousness each reflecting the problems of their self critical creator are tantamount to dreams The hieroglyphic pictorial language in which they are written is the symbolic language in which dreams and thoughts on the edge of sleep are visualized Not for nothing did Kafka define his writing as a matter of fantasizing with whole orchestras of free associations Written in a deliberately enhanced hypnagogic state these novels embody the alternative logic of dreams with the emphasis on chains of association and verbal bridges between words and word complexes The product of many years preoccupation with its subject Patrick Bridgwater's new book is an original chapter by chapter study of three extraordinarily detailed novels of each of which it offers a radically new reading that makes more and different sense than any previous reading In Barthes terms these fascinating novels are unreadable but the present book shows that properly read they are entirely if ambiguously readable Rooted in Kafka's use of language it consistently explores in detail i the linguistic implications of the dreamlike nature of his work ii the metaphors he takes literally and iii the ambiguities of so many of the words he chooses to use In

doing so it takes account not only of the secondary meanings of German words and the sometimes dated metaphors of which Kafka taking them literally spins his text but also where relevant of Czech and Italian etymology Split for ease of reference into chapters corresponding to the chapters of the novels in the new Originalfassung the book is aimed at all readers of Kafka with a knowledge of German for the author shows that Kafka's texts can be understood only in the language in which they were written because Kafka's meaning is often hidden beneath the surface of the text conveyed via secondary meanings that are specific to German any translation is necessarily an Oberflächensetzung *The novels of Bjørnstjerne Bjørnson, ed. by E.
