Rogers,2011-01-16 In America more money is spent from all sources on K 12 education than

on the U S Department of Defense Why then are so many children suffering what amounts to educational malpractice Why are they crippled for life with a substandard education and a life altering vision of themselves as incapable Betrayed is a passionate well researched and frank accounting of how a failing public education system continues to be forced on teachers and students despite its nearly complete lack of supporting research or successful student outcomes Betrayed roots out the self styled stakeholders whose personal professional and financial interests are served by this failing system It sympathizes with teachers many of whom aren t allowed to do their jobs yet are constantly threatened with removal for ineffectiveness or insubordination Betrayed is an expose but it s also a beacon of commonsense and hope Through the Square of Effective Learning Betrayed offers practical methods for teachers parents advocates and legislators to stand up against this broken system to effect positive change and to ensure a good quality education for all of our children *Singapore Math Challenge, Grades 5 - 8*, 2013-02-01 Get ready to take the Math Challenge Singapore Math Challenge will provide fifth grade students with skill building practice based on the leading math program in the world Singapore Math Common Core Standards accelerate math expectations for all students creating a need for challenging supplementary math practice Singapore Math Challenge is the ideal solution with problems puzzles and brainteasers that strengthen mathematical thinking Step by step strategies are clearly explained for solving problems at varied levels of difficulty A complete worked solution is also provided for each problem Singapore Math Challenge includes the tools and practice needed to provide a strong mathematical foundation and ongoing success for your students The Common Core State Standards cite Singapore math standards as worldwide benchmarks for excellence in mathematics **Conceptual Model-Based Problem Solving** Yan Ping Xin, 2013-02-11 Are you having trouble in finding Tier II intervention materials for elementary students who are struggling in math Are you hungry for effective instructional strategies that will address students conceptual gap in additive and multiplicative math problem solving Are you searching for a powerful and generalizable problem solving approach that will help those who are left behind in meeting the Common Core State Standards for Mathematics CCSSM If so this book is the answer for you The conceptual model based problem solving COMPS program emphasizes mathematical modeling and algebraic representation of mathematical relations in equations which are in line with the new Common Core Through building most fundamental concepts pertinent to additive and multiplicative reasoning and making the connection between concrete and abstract modeling students were prepared to go above and beyond concrete level of operation and be able to use mathematical models to solve more complex real world problems As the connection is made between the concrete model or students existing knowledge scheme and the symbolic mathematical algorithm the abstract mathematical models are no longer alien to the students As Ms Karen Combs Director of Elementary Education of Lafayette School Corporation in Indiana testified It really worked with our kids One hallmark of mathematical understanding is the ability to justify why a particular mathematical statement is true or where a mathematical rule comes from <http://illustrativemathematics.org/standards>

Through making connections between mathematical ideas the COMPS program makes explicit the reasoning behind math which has the potential to promote a powerful transfer of knowledge by applying the learned conception to solve other problems in new contexts Dr Yan Ping Xin s book contains essential tools for teachers to help students with learning disabilities or difficulties close the gap in mathematics wordproblem solving I have witnessed many struggling students use these strategies to solve word problems and gain confidence as learners of mathematics This book is a valuable resource for general and special education teachers of mathematics Casey Hord PhD University of Cincinnati
