**The Oxford History of Classical Reception in English Literature** Patrick Cheney, Philip Hardie, 2015-10-29 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume and third to appear in the series covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading *The Athenaeum*, 1909 *Literatures of Exile in the English Revolution and its Aftermath, 1640-1690* a foreword by Lisa Jardine, 2016-12-05 Original and thought provoking this collection sheds new light on an important yet understudied feature of seventeenth century England s political and cultural landscape exile Through an essentially literary lens exile is examined both as physical departure from England to France Germany the Low Countries and America and as inner mental withdrawal In the process a strikingly wide variety of contemporary sources comes under scrutiny including letters diaries plays treatises translations and poetry The extent to which the richness and disparateness of these modes of writing militates against or constructs a recognisable rhetoric of exile is one of the book s overriding themes Also under consideration is the degree to which exilic writing in this period is intended for public consumption a product of private reflection or characterised by a coalescence of the two Importantly this volume extends the chronological range of the English Revolution beyond 1660 by demonstrating that exile during the Restoration formed a meaningful continuum with displacement during the civil wars of the mid century This in depth and overdue study of prominent and hitherto obscure exiles conspicuously diverse in political and religious allegiance yet inextricably bound by the shared experience of displacement will be of interest to scholars in a range of disciplines **Marvell** Annabel M. Patterson, 2014-09-25 Marvell The Writer in Public Life is substantially revised from Professor Patterson s well received 1978 study including a new introduction and new chapter on Marvell and secret history This important study provides an up to date perspective on a writer still thought of merely as the author of lyric and

pastoral poems It looks at both Marvell's political poetry and his often neglected political prose revealing Marvell's life long commitment to writing about the values and standards of public life and follows his often dangerous writerly activities on behalf of freedom of conscience and constitutional government

**Dramatic Bibliography**, 1933 Radical voices, radical ways Laurent Curelly, Nigel Smith, 2016-10-30 This collection of essays studies the expression and diffusion of radical ideas in Britain from the period of the English Revolution in the mid seventeenth century to the Romantic Revolution in the early nineteenth century The essays included in the volume explore the modes of articulation and dissemination of radical ideas in the period by focusing on actors radical voices and a variety of written texts and cultural practices radical ways ranging from fiction correspondence pamphlets and newspapers to petitions presented to Parliament and toasts raised in public They analyse the way these media interacted with their political religious social and literary context This volume provides an interdisciplinary outlook on the study of early modern radicalism with contributions from literary scholars and historians and uses case studies as insights into the global picture of radical ideas It will be of interest to students of seventeenth and eighteenth century literature and history

Writing

and Religion in England, 1558-1689 Professor Anthony W Johnson, Professor Roger D Sell, 2013-04-28 The fruit of intensive collaboration among leading international specialists on the literature religion and culture of early modern England this volume examines the relationship between writing and religion in England from 1558 the year of the Elizabethan Settlement up until the Act of Toleration of 1689 Throughout these studies religious writing is broadly taken as being communicational in the etymological sense that is as a medium which played a significant role in the creation or consolidation of communities Some texts shaped or reinforced one particular kind of religious identity whereas others fostered communities which cut across the religious borderlines which prevailed in other areas of social interaction For a number of the scholars writing here such communal differences correlate with different ways of drawing on the resources of cultural memory The denominational spectrum covered ranges from several varieties of Dissent through via media Anglicanism to Laudianism and Roman Catholicism and there are also glances towards heresy and the mid seventeenth century s new atheism With respect to the range of different genres examined the volume spans the gamut from poetry fictional prose drama court masque sermons devotional works theological treatises confessions of faith church constitutions tracts and letters to history writing and translation Arranged in roughly chronological order *Writing and Religion in England 1558 1689* presents chapters which explore religious writing within the wider contexts of culture ideas attitudes and law as well as studies which concentrate more on the texts and readerships of particular writers Several contributors embrace an inter arts orientation relating writing to liturgical ceremony painting music and architecture while others opt for a stronger sociological slant explicitly emphasizing the role of women writers and of writers from different sub cultural backgrounds *Reducing Brain Damage* Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2006-07-11 Strokes are one of the top three causes of death in England and a leading cause of adult disability There are 110 000 strokes each year in England with a quarter occurring to people under 65 years Some 300 000 people in England are living with moderate to severe disabilities as a result of a stroke As the NAO report on this subject pointed out HCP 452 session 05 06 NAO ISBN 010293570X it costs the economy in total about 7 billion a year with the direct cost to the NHS about 2 8 billion This Committee of Public Accounts report takes evidence from the Department of Health and sets out a number of recommendations The cost of stroke in both economic and human terms could be reduced by re organizing existing services more effectively Brain scans of many stroke patients are being delayed everyone who suffers a stroke should be scanned as soon as possible after arrival in hospital and should not wait more than 24 hours Stroke patients should spend longer in hospital on a stroke unit this could reduce the number of deaths There needs to be an increase in the number of consultants who have training in dealing with strokes as well as therapists and other specialist staff with expertise in stroke care across the primary and secondary healthcare sectors The Department of Health should improve provision of information to stroke survivors and carers so they are made more aware of the support services available The Department should run an awareness campaign to improve public

**In the Anteroom of Divinity** Feisal Mohamed, 2008-12-27 *In the Anteroom of Divinity* focuses on the persistence of Pseudo Dionysian angelology in England's early modern period. Beginning with a discussion of John Colet's commentary on Dionysius's twin hierarchies, Feisal G. Mohamed explores the significance of the Dionysian tradition to the conformism debate of the 1590s through works by Richard Hooker and Edmund Spenser. He then turns to John Donne and John Milton to shed light on their constructions of godly poetics, politics, and devotion, and provides the most extensive study of Milton's angelology in more than fifty years. With new philosophical, theological, and literary insights, this work offers a contribution to intellectual history and the history of religion in critical moments of the English Reformation.
