Sisterly Love Women Of Note In Pennsylvania History:

Sisterly Love Marie A. Conn,Thérèse McGuire,2014-10-30 Sisterly Love Women of Note in Pennsylvania History is a collection of biographical sketches of women who have made or are making significant contributions to Pennsylvania history The authors of each chapter span across several disciplines and colleges in the Philadelphia area through SEPCHE the Southeast Pennsylvania Consortium of Higher Education In these essays you will meet artists political leaders entrepreneurs teachers computer experts environmentalists abolitionists and more Some of these women are well known many are not Yet each has helped to shape the state of Pennsylvania in compelling and meaningful ways Notable American Women with Czechoslovak Roots Miloslav Rechcigl Jr.,2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role *Katharine Drexel and the Sisters Who Shared Her Vision* McGuinness, Margaret M.,2023 Although Katharine Drexel has been the subject of several biographies they have tended to treat her as a perfect human being whom the Church later transformed into a saint Katherine and the Sisters Who Shared Her Vision moves beyond the story of the heiress s individual life devoted to God and shines a light on the work she did assisted by the Sisters of the Blessed Sacrament Drexel could have lived comfortably wealthy and privileged as a Philadelphia philanthropist but chose to found a religious congregation of women dedicated to working within Black and Indigenous communities without receiving the bulk of the money left by Drexel s father The author s careful examination of the work Drexel and her Sisters accomplished in Philadelphia and elsewhere shows impacts on the Church while also revealing racial issues at work in the story This brings a critical perspective to Drexel s ministry to further our understanding of the Black Catholic community and renew our commitment to the difficult ongoing conversation about race in America

The Oxford History of Life-Writing: Volume 1. The Middle Ages Karen A. Winstead, 2018-04-05 The Oxford History of Life Writing Volume 1 The Middle Ages explores the richness and variety of life writing from late Antiquity to the threshold of the Renaissance During the Middle Ages writers from Bede to Chaucer were thinking about life and experimenting with ways to translate lives their own and others into literature Their subjects included career religious saints celebrities visionaries pilgrims princes philosophers poets and even a few ordinary people They relay life stories not only in chronological narratives but also in debates dialogues visions and letters Many medieval biographers relied on the reader's trust in their authority but some espoused standards of evidence that seem distinctly modern drawing on reliable written sources interviewing eyewitnesses and cross checking their facts wherever possible Others still professed allegiance to evidence but nonetheless freely embellished and invented not only events and dialogue but the sources to support them The first book devoted to life writing in medieval England The Oxford History of Life Writing Volume 1 The Middle Ages covers major life stories in Old and Middle English Latin and French along with such Continental classics as the letters of Abelard and Heloise and the autobiographical Vision of Christine de Pizan In addition to the life stories of historical figures it treats accounts of fictional heroes from Beowulf to King Arthur to Queen Katherine of Alexandria which show medieval authors experimenting with adapting and expanding the conventions of life writing Though Medieval life writings can be challenging to read we encounter in them the antecedents of many of our own diverse biographical forms tabloid lives literary lives brief lives revisionist lives lives of political figures memoirs fictional lives and psychologically oriented accounts that register the inner lives of their subjects The United States Catalog, 1906

heritage **Breaking the Gender Code** Georgina Hickey, 2023-12-12 Historian Georgina Hickey investigates challenges to the code of urban gender segregation in the 20th century focusing on organized advocacy to make the public spaces of American cities accessible to women. She traces waves of activism from the Progressive Era with its calls for public restrooms, rooming houses, anti-spitting ordinances, covered bus stops, employment bureaus, lunch rooms, and women police, through and beyond second wave feminism and its focus on the creation of alternative women-only spaces. In doing so, Hickey looks at how class, race, and sexuality shaped activists' agendas and shaped women's experiences of urban space and the gains and limitations of this activism. She uses a wide range of archival material from press coverage to neighborhood association records, to etiquette manuals, and studies a variety of cities from Minneapolis to Atlanta. Throughout, she draws connections between the vulnerability of women in public spaces, real and presumed, and contemporary debates surrounding rape culture, bathroom bills, and domestic violence. Ultimately, Hickey unveils the institutionalized hierarchies that have made women feel uncomfortable in American cities and the both strikingly successful and incomplete initiatives activists undertook to open up public space to women. The manuscript is organized into eight chapters that move chronologically through the twentieth century, with an epilogue that reflects on how these issues manifest in the present.
