an inside look at the industry's daily routines, personal dramas, and institutional crises, he reveals how conglomeration has shaped what kinds of books and writers are published. Sinykin examines four different sectors of the publishing industry: mass market books by brand-name authors like Danielle Steel; trade publishers that encouraged genre elements in literary fiction; nonprofits such as Graywolf that aspired to protect literature from market pressures; and the distinctive niche of employee-owned W.W. Norton. He emphasizes how women and people of color navigated shifts in publishing, arguing that writers such as Toni Morrison allegorized their experiences in their fiction. *Big Fiction* features dazzling readings of a vast range of novelists, including E.L. Doctorow, Judith Krantz, Renata Adler, Stephen King, Joan Didion, Cormac McCarthy, Chuck Palahniuk, Patrick O'Brian, and Walter Mosley, as well as vivid portraits of industry figures. Written in gripping and lively prose, this deeply original book recasts the past six decades of American fiction.

American Insecurity and the Origins of Vulnerability Russ Castronovo, 2023-09-26 An incisive critique that examines the origins of contemporary American ideas about surveillance, terrorism, and white supremacy. For more than three centuries, Americans have pursued strategies of security that routinely make them feel vulnerable, unsafe, and insecure. *American Insecurity and the Origins of Vulnerability* probes this paradox by examining American attachments to the terror of the sublime, the fear of uncertainty, and the anxieties produced by unending racial threat. Challenging conventional approaches that leave questions of security to policy experts, Russ Castronovo turns to literature, philosophy, and political theory to show how security provides an organizing principle for collective life in ways that both enhance freedom and limit it. His incisive critique ranges from frontier violence and white racial anxiety to insurgent Black print culture and other forms of early American terror, uncovering the hidden logic of insecurity that structures modern approaches to national defense, counterterrorism, cybersecurity, surveillance, and privacy. Drawing on examples from fiction, journalism, tracts, and pamphlets, Castronovo uncovers the deep affective attachments that Americans have had since the founding to the sources of fear and insecurity that make them feel unsafe. Timely and urgent, *American Insecurity and the Origins of Vulnerability* sheds critical light on how and why the fundamental political desire for security promotes unease alongside assurance and fixates on risk and danger while clamoring for safety.

Patrick O'Brian Dean King, 2012-03-20 *DIVA* revealing and insightful look at one of the modern world's most acclaimed historical novelists. *DIV* Patrick O'Brian was well into his seventies when the world fell in love with his greatest creation, the maritime adventures of Royal Navy Captain Jack Aubrey and ship's surgeon Stephen Maturin. But despite his fame, little detail was available about the life of the reclusive author whose mysterious past King uncovers in this groundbreaking biography. *DIV* *DIV* *DIV* King traces O'Brian's personal history, beginning as a London-born Protestant named Richard Patrick Russ to his tortured relationship with his first wife and child, to his emergence from World War II with the entirely new identity under which he would publish twenty volumes in the Aubrey Maturin series. What King unearths is a life no less thrilling than the seafaring world of O'Brian's imagination.
