Kim, Gary Hendricks, 2011-12-01 India's civil service retirement benefit system based on a defined benefit scheme imposed an annual expenditure of over 30 billion on the central and state governments. In an effort to truncate the unfunded scheme which covers 30 million central and state government employees, the Government of India in 2004 decided to replace the traditional defined benefit scheme with a defined contributory scheme known as the New Pension Scheme. This book contains an account of the efforts of five states: Assam, Bihar, Chhattisgarh, Jharkhand, and Madhya Pradesh to estimate their current pension liabilities, project annual pension costs over the next 15-25 years, and explore options for managing their annual costs. Using newly constructed employee databases, the book discusses in detail the projections for each state and suggests cost-saving measures based on specific needs. Also included is a lengthy discussion of the lessons that emerged in database construction and practical recommendations in managing pension costs. *Ethics in Governance in India* Bidyut Chakrabarty, 2016-03-31 Governance and ethics are intertwined. A government functions within certain broad moral and ethical parameters integrally linked with the sociological foundation of the polity in which it is articulated. The importance of ethics in governance has acquired a significant place in contemporary theoretical discussion. This book situates ethics in governance in India in the national frame and incorporates the context of globalization, allowing for the increasing importance of non-state global actors in national decision-making. The author argues that a lack of ethics quickly turns into corruption and leads to governmental efforts to deal with it. He proposes that ethics are a set of standards that a society places on itself to articulate its responses to societal needs and discusses the efforts of the Indian government at eradicating corruption and its failure. A theoretical approach to the issues of ethics in governance and corruption, this book is of interest to academics in the fields of Asian Politics, in particular Indian politics and political philosophy. **Indian Defence Review** Oct-Dec 2012 Vol 27.4 Bharat Verma, 2013-09 In this volume: 1962 The Nehruvian Blunder, Taking on the Dragon Helicopters in Special Operations, China's Space Programme and Its Implications for India, Air Power against the Maoists, Military Application of Unmanned Rotary Wing Aircraft, Aerospace and Defence News, A British Appreciation, Could Tibet have been Defended, Higher Defence Management through Effective Civil-Military Relations, India and the South Asian Neighbourhood, Pretending Soldiers, Disputes in the South China Sea, SELLING POINTS.
