Webber, 2003-11-01 Following his well received Ancient Future Faith Robert Webber presents a new model for evangelism and discipleship the first in a series of four books applying his theoretical ideas to practical situations Part 1 of Ancient Future Evangelism surveys evangelism and Christian formation throughout the church and then translates the process for twenty first century Christians Webber presents evangelism as four distinct stages and suggests three accompanying rites of passage that can be easily adapted to any church tradition Part 2 underscores how the four fold process of faith formation is interwoven with three theological principles Christ as victor

over evil the church as witness to God's salvation and worship as a witness to God's mission accomplished in Jesus. **Expository Discourse in Children, Adolescents, and Adults** Marilyn A. Nippold, Cheryl M. Scott, 2013-03-07 School success in the 21st century requires proficiency with expository discourse: the use and understanding of informative language in spoken and written modalities. This occurs, for example, when high school students read their textbooks and listen to their teachers' lectures and later are asked to demonstrate their knowledge of this complex topic through oral reports and essay examinations. Although many students are proficient with the expository genre, others struggle to meet these expectations. This book is designed to provide information on the use and understanding of expository discourse in school-age children, adolescents, and young adults. Recently, researchers from around the world have been investigating the development of this genre in typical students and in those with language disorders. Although many books have addressed the development of conversational and narrative discourse, by comparison, books devoted to the topic of expository discourse are sparse. This cross-disciplinary volume fills that gap in the literature and makes a unique contribution to the study of language development and disorders. It will be of interest to a range of professionals, including speech-language pathologists, teachers, linguists, and psychologists who are concerned with language development and disorders.
