**Free Speech after 9/11** Katharine Gelber, 2016-04-15 Although there has been a lot written about how counter terrorism laws impact on human rights and civil liberties most of this work has focussed on the most obvious or egregious kinds of human rights abrogation such as extended detention torture and extraordinary rendition Far less has been written about the complex ways in which Western governments have placed new and far reaching limitations on freedom of speech in this context since 9 11 This book compares three liberal democracies the United States the United Kingdom and Australia in particular showing the commonalities and similarities in what has occurred in each country and the changes in the appropriate parameters of freedom of speech in the counter terrorism context since 9 11 achieved both in policy change and the justification for that change In all three countries much speech has been criminalized in ways that were considered anachronistic or inappropriate in comparable policy areas prior to 9 11 This is particularly interesting because other works have suggested that the United States unique protection of freedom of speech in the First Amendment has prevented speech being limited in that country in ways that have been pursued in others This book shows that this kind of argument misses the detail of the policy change that has occurred and privileges a textual reading over a more comprehensive policy based understanding of the changes that have occurred The author argues that we are now living a new normal for freedom of speech within which restrictions on speech that once would have been considered aberrant overreaching and impermissible are now considered ordinary necessary and justified as long as they occur in the counter terrorism context This change is persistent and it has far reaching implications for the future of this foundational freedom

**The Experiences of Black and Minority Ethnic Academics** Kalwant Bhopal, 2015-06-26 Recent research suggests that Black and minority ethnic BME academics remain underrepresented particularly at senior levels in higher education and tend to be concentrated in new post 1992 universities This book provides an original comparative study of BME academics in both the UK and the USA two

different yet similar cultural and political climates considering issues of inequality difference and identity in the Academy Presenting a distinctive and engaging voice the book discusses the complexity of race gender and identity in the context of higher education an area that continues to appear to be dominated by white middle class values and perspectives Chapters offer an up to date commentary on the purpose failures and potential of research on race gender and identity and its place within contemporary education and sociology The book broadens the understanding of educational research considering both sociological and cultural discourse as well as examining racialized and gendered identities from a theoretical and analytical standpoint The book closes by offering suggestions for viable policy shifts in this area The Experiences of Black and Minority Ethnic Academics will be of key interest to researchers academics and postgraduate students in the field of education as well as sociologists wanting to learn more about black and minority academics in higher education **AQA Economics Student**
